Bolivar Bulletin Times

The Weekly Publication of The County Journal, Inc.

Volume 153, Issue 22 JUNE 1, 2017 SINCE 1865 ONE DOLLAR

From the Other Side of the Desk
Dear Governor Haslam,
We wanted to congratulate you on the passage of the IMPROVE Act and to tell you we can't wait for you to spend \$78,000,000 (!!!) on our roads and bridges.

First of all, I noticed there is a proposed outlay of more than \$6,000,000 to fix a .01 mile (by your estimation) bridge on Sain Road near my house.

Boy, good thing you're paying for this. After all, the entire yearly revenue for the county is only about \$11,000,000. We'd hate to use half of that on a small bridge on a two-lane highway.

But we're not upset, in fact, we want to help out. I've talked with some of my friends and we think we can do it a little cheaper, since \$6,000,000 seems a little high.

First of all, we are going to use concrete and steel instead of the gold and platinum your plans must have in them.

We thought we would eat sandwiches for lunch each day instead of having lobster flown in from Maine and water will probably do just fine to wash it down instead of the 1926 Dom Perignon your people must have told you they would need.

We could meet at my house to go over the plans. Cancel the reservations for the Throne Room at Buckingham Palace.

If we think of any more ways to save money, I'll let you know.

Now, realize, I'm not an engineer. But whoever told you it made sense to spend \$6,000,000 to fix that bridge might not be one either.

Anyway, we'd like to help. Let me know what you think. But hurry, an offer like this is so ridiculous, it might not last.

Darrell Teubner, Editor

Selling The IMPROVE Act

The promise of more than \$78 million in infrastructure funding for Hardeman County is why the Transportation Coalition came to Hardeman County on May 25.

"The IMPROVE Act creates a long-term, dedicated funding source to fix outdated transportation infrastructure by making a modest increase to the user fees on its roads and bridges while providing a tax cut to the grocery, business, and Hall income taxes," said the press release. "The increase in user fees means Tennessee residents won't shoulder the entire burden alone, as revenue will be captured from visiting tourists and the trucks that move goods through the state."

For Hardeman Countians, the act will trigger a \$5 increase in the Hardeman County state tag fee for cars, and a \$20 increase for farm and for-hire tags as well as an increase in taxes on gasoline and diesel fuels. Also, all-electric cars will be charged \$100 more.

Tags due through June will pay the old rate, unless payment is made after July 1.

Proponents of the act say a 20% decrease in grocery taxes will offset the wheel tax and fuel increases.

The press release details twelve projects that are cited as improvements to infrastructure in Hardeman County, including \$6,538,000 to fix the bridge that runs over Spring Creek on Sain Road and two separate outlays of more than \$21 million for different sections of the IMPROVE Act.

yet to be finalized Bolivar bypass.

"The total impact for Hardeman County is \$12,299,917 for the combined revenue to cities and counties as well as the Tennessee Department of Transportation road and bridge projects, totaling \$66,138,042 from the IMPROVE Act," added the release.

The release also promises increased revenues in each of Hardeman County's nine municipalities, ranging from \$766,294 in Bolivar to \$14,004 in Hickory Valley over the next 15 years, noting that revenue totals are based on estimates of the full implementation of the IMPROVE Act.

Local Group Makes National Splash

Bolivar based gospel group Fred Perry & Second Generation has made a splash on the national scene, charting #28 on the Billboard Gospel Sales chart, with their album, *The Wisdom Project*.

Fred Perry & Second Generation is comprised of Minister Fred Perry and his three sons: Frederick 25, Jordan 19, and Isaiah 14. Hailing from the Memphis area, they are the 2014 winners of Lisa Knowles' Evolution of Quartet Showcase, 2015 winners of Esther Wooten's Excelesisa Showcase, and they were nominated for six Rhythm of Gospel Awards in 2016 and a Triangle Award in 2017.

If You Can Read This, Thank a Fireman

Bolivar citizens came together to "Build a Better World" for the kick-off to summer reading party at the Bolivar-Hardeman County Library, with bounce houses, face painting, an obstacle course, concessions, a demonstration from the City of Bolivar Fire Department, and New Orleans Style Sno-Balls on hand.

OUR COUNTY

Hardeman County Remembered by Lisa Coleman

June 6 marks the anniversary of the date when Allied troops landed along a 50-mile stretch of heavily-fortified French coastline to fight Nazi Germany on the beaches of Normandy, France. General Dwight D. Eisenhower declared that the operation would "...accept nothing less than full victory." Also part of the day's assault were 5,000 ships and 13,000 aircraft serving in support of troops on the ground. At that end of that day, more than 9,000 Allied soldiers were killed or wounded, but approximately 100,000 of them began the march across Europe that would ultimately defeat Hitler.

There were many from Hardeman County, or with ties to Hardeman County, who served in World War II. At another of those intersections of my family's history and the history of America – and the world – I have a cousin who landed on those French beaches. My cousin, James Kestler, was born and spent his early years in Hardeman County; his family later moved to North Carolina, where he and his wife, Doris, made their home. Like many of those who served during WWII, James did not often speak about his service, and only began to tell more of the story in his later years. In his 90's,

his mind was sharp and he could recall events in vivid details and could tell you the names of so many in his Army unit. He and Doris celebrated over 70 years of marriage together; he left for the war only three months after they were married. She kept all of the letters James sent to her, including the last and most important letter, the one telling her he would soon be coming home. She still calls him a hero, and rightly so.

James said that his unit wasn't told where they were going, they just did what they were told. Orders eventually took he and his unit to France, where they waited for a week off of the coast of Normandy. On June 7, his unit landed on Omaha Beach; he remembered that there was still firing going on all around the beach. "They were just firing those things. It was the biggest firework display I had ever seen", he said. One of his most vivid memories is that of fellow soldiers he found lying dead along the beach. "I saw a row of dead Americans. I saw right there where we landed, and right along the base, back from the water a little way, they had them racked up in stretchers."

Just a little over a week later, on June 16, 1944, James was wounded in action. He would spend time

in a hospital in England convalescing before coming home for a 30-day furlough. He was awarded a Purple Heart for his actions in Europe; he didn't talk about that much, but a couple of years before he passed away, he was honored as the oldest living Purple Heart recipient in North Carolina.

Take time a few moments on June 6 to pause and think about those who served throughout the war, but especially those young men who landed on those French beaches and walked straight into enemy fire. We must never forget them and what they did. Bless you and thank you all.

Walking Across Tennessee by Ginger Tester

Walk Across Tennessee. An eight-week walking competition, concluded in Hardeman County last week. The UT Extension Office had eight teams compete in the program. Altogether, the teams logged over 7,879.18 miles to help promote physical activity and health while having fun and enjoying time with friends. The Herron Baptist Church +1 Team logged 1,910 miles clinching their first-place win. The Hardeman Trotters came in second and the School of Walk came in third, both walking over 1,000 miles per team.

Katie Dees at the UT Extension Office hosted and led the program. Another Walk Across Tennessee competition will be held in the

fall.
Photo: Mostella Colby, Nelda Spencer and Mary Woods are members present of the Herron Baptist Church+1 Team.

COMMUNITY NEWS

Remember to call with your news or a memory so we all can stay connected. Joseph Lambert was very busy last week. He graduated from high school Thursday night. He was blessed to have aunts, an uncle and cousins from Indiana to help him celebrate. On Friday night, there was a cookout in his honor at his home. Family and friends chose this time to present him with their cards and gifts.

Freda Crowley spent a few days at JMCGRH for a kidney infection. She is also experiencing some issues with her esophagus and swallowing.

The homecoming services at the Methodist Church on May 21 were very nice. Worship music was very touching. Bro. George Archer and Wanza (Rush)'s daughter and husband led the music. Their daughter-in-law played the piano. After a very timely message, the worshipers drove to the cemetery for a pot luck meal. Everyone seemed to have a very enjoyable day.

Residents of the Silerton area have certainly enjoyed the presence of Mr. and Mrs. Kenneth Mayfield from Dallas, TX. They attended homecoming services at the Baptist Church on May 7. They traveled back to Dallas to conduct some business affairs and then drove back to attend the homecoming services at Wesley Cemetery on May 14. Once again, they had to return to Dallas, but came back for homecoming services at the Methodist Church and Hickory Grove Cemetery on May 21.

Wishing Doris (McCann) Ervin a fast recovery from a broken bone caused by a recent fall. She and her family were unable to attend the homecoming on May 21 at the Hickory Grove Cemetery. They were certainly missed.

Richard and Rita Crowley from Houston, TX are visiting in Silerton for a few days.

Larry and Anita Lambert spent last week in Branson, MO. Larry said that they had a fun time and stayed busy. They traveled with four friends.

Bill and Gail Mayfield attended graduation exercise for grandson, Brandon Keel, at the Southern Baptist Seminary in Louisville, KY. Brandon received a Master of Science degree in Theology along with more than 200 graduates from all over the world. The ceremony was held on the lawn of the campus quadrangle. Brandon is the youth pastor for Dadeville, Alabama Baptist Church. While in northern Kentucky, they then drove to visit Bill's cousin, Fay Mayfield Beech in Dry Ridge, KY and on to tour the Ark, a replica of Noah's ark.

Bill Rush traveled to Memphis for the 50th Wedding Anniversary of Millard and Bonnie (Mayfield) Townsend. He traveled with his niece, Rhonda, and her husband Mike Woodham. The event was Saturday, May 20th.

Willard, Linda, Kevin and Melea Beshires enjoyed a cookout in the Holly Beshires Memorial Park Saturday evening, May 20, after a morning of hard work in the park. Hopefully you will enjoy spending some time in the park.

Our prayer list: Grace Bynum, Wilma Bynum, Cleo Snelling, Curtis and Marjorie Hines, Jack Hopkins, Tate Daniel, Paula and Ken Stanley, and Barbera and Jr. Hensley. May God heal you and bless you all!

June birthdays: 2, Eric Russell, Margie Burnette, 3, Jacob Pierce, 14, Mayor Jim Daniel, 17, Caden Russell, Sidney and Morgan Russell, 20, Trenton Braddock, Debbie Newton, 21, Luke Daniel, 23, Sue Bynum, Butch Wilson, 26, Autumn Faries, 28, Billy Brotherton. May God bless you all and hope your day is great.

My daughter, Kim Burnette, and I took a trip to Biloxi, MS. to celebrate Kim's 40th birthday. Had a great trip!! Hope everyone had a safe and great Memorial Day!! Celebrate all servicemen and service women! That's all for this week. May God bless you all and keep you safe! Until next week.

School is out for the summer! Parents, please make plans for your children to attend two special events that will be occurring in our community very soon: First Baptist Church Vacation Bible School and The Jr. Park Ranger Program at the Grand Junction Library.

Vacation Bible School will be held June 5th-9th from 6:30-8:45 pm each night. This year's theme will be Maker Fun Factory; "Created by God-Built for a Purpose". Kids will learn about God's love for them during fun songs, games, snacks, crafts, and Kid Vid Cinema. Please call the Church for more information at 731-764-2317 or email fbcgrandjunction@bellsouth.net

The Jr. Park Ranger Program will be held on Tuesdays in June at the library. It will begin at 1 p.m. for children starting at age 7. Please call the library at 731-764-2716 for more information.

Please remember to turn in your General Mills box tops and Tyson Chicken labels for Education to the library. The box tops and labels will be donated to Grand Junction Elementary School. Remember, whoever turns in the most of these items will win a prize.

May 12-31 Birthdays: Terry Shelby, Betty Kee, and Grady Houston-12; Ellen Hobbs-14; Bubby Thompson and Hannah Styers-15; Bryan Sutton-17; Lincoln Rahe-18; Haley Scott-20; Codi Tibodeau-22; Tyler Hennis-23; Jerry Smith-26; Abi Styers-27

Scripture Verse for the week; All scripture is given by inspiration of God and is profitable for doctrine, for reproof, for correction, and for instruction in righteousness. 2 Timothy 3:16

Continue to remember the sick and shut ins. Those I know of are: Sharon Azotea, Johnny Lowrance, Benny Luker, Jackie Kennemore, David Burcham, Jason Dixon, Johnny Jackson, Linsey Parmley, and Dorris Medlin. This is my sister, Dorris Medlin from Virginia.

I failed to mention in last weeks news that Reba and I drove 3,116 miles. This completed my bucket list to visit all 50 States. It also added several more to Reba's list. She made it safely home to Denver, CO on May 26. A friend accompanied her home and will be flying back to Memphis this week. She also picked up her new tiny puppy in Kansas on her way home.

I attended the Memorial Day Program in Middleton. There was a very good turnout. Jennifer Roberson sang the National Anthem and did a good job. Mr. William Beibers was the keynote speaker and did such an awesome job. Prayer was led by Pastor Wayne Flake. We all appreciate our Veterans and their families for all they gave up for our freedom.

Middleton Civitan will meet June 5th at 6 p.m. at Middleton Methodist Fellowship. Everyone is welcome.

Thanks to those who are saving the Best Choice labels for the Middleton Woman's Club. The money received from this helps with the improvements to the city park.

Thanks to those calling and giving me people that are sick and/or news. Call 731-376-8202 or email at bonnieshealthyliving@comcast.net with any news.

Hello from Toone, where after a stormy and rainy holiday weekend, summer has officially begun! Many Toone-area families are enjoying vacations at the beach while others are cooling off in the mountains, and many are choosing to stay home and enjoy boating or laying by the pool. Whatever summer activities you choose, we hope you have a fun and enjoyable summer!

The month of June has been designated, "Youth Month" and "Vacation Bible School Month" at Clover Chapel Baptist Church, in Cloverport. For more information, contact the church.

Many of our TES students received awards for the 2016-17 school year at the Toone School Awards Day. Among those being recognized were: Leland Ester, who received the Science award; Travis Sowder, received the Science Award and the "Principal's Honor Roll" Award for making the honor roll throughout the entire school year. Dylan Hill, received the award for "Most Improved Student" in his class, and Mason Sowder was awarded Most Improved for Pre-K. In addition to being named class Valedictorian, Miss Lily Reid also was this year's recipient of the "Merchants & Planters Scholarship Award. Congratulations to all of these and the many other fine students who received awards!

Sadly we will soon be saying goodbye to our long-time Toone neighbors, Frank and Patsy Tobias, who will be moving to Texas to be closer to their sons and grandchildren. Patsy grew up here in Toone and she and Frank lived in Texas for many years until they both retired and moved back here to Toone. We will miss them, and we wish them the very best in this new chapter in their lives.

Joe Sills will soon be celebrating his 5th anniversary as music director here at Toone Baptist Church. Joe, who was a former band director at Bolivar Central High School in the 70s, and his wife, Susan, now live in Brownsville, TN. Congratulations to him!

Debbie Frost, of Cloverport, attended a recent performance of "Hometown Heros" at Hardeman County Arts Council. She says it was a wonderful show with lots of wonderful patriotic music. If you've never been to a play at the Arts Council Theater, your next opportunity will be in September for the HCAC presentation of the hit musical, "Grease"! Don't miss this one!

Until next time. . . talk to your neighbors!

amber.moore_04@yahoo.com

Thy Neighbor" ministries will be collecting for the month of June cans of peas and bars of soap. Anyone who would like to know more about these ministries please give me a call. Hornsby Baptist will start its Sunday night activities again on June 4th with kickball and June 11th with homemade ice cream. It is a wonderful time for devotion and fellowship and we hope to see a lot of folks come. If you have any news or anything you would like to share please call or email me, I would love to hear from you. There are so many prayer needs throughout the community, county, and our nation, I hope you do take a few minutes each day to pray for these things.

Please remember to pray for the following: Patricia Baker, Terry Baker, Max Beck, Melanie Bowers, Rick Brown, Ricky Chandler, Amanda Cornelius, Dell Ann Cossar, Kenneth Crawford, Sue Day, Elynor DeBerry, Bobbie Dorris, Kim Emerson, Shirley Emerson, Nina Floyd, Nancy Foote, Lee Gainey, Esther Galigher, Fred Haire, Richard Hazelwood, Sue Hodge, Diane Holmes, Dewey Hopkins, Ann Hornsby, Carolyn Howell, Jo Edna Howell, Wade Howell, Charley Johnson, Ann Kelly, Aubrey King, Jamie King, Joe Lacroix, Debbie Laster, Nell Maddox, Bobbie McBride, Betty McMahan, Evan Nield, Lockie Newman, Josh Overton, Timmy Parchman, Gay Pierce, Prissy Poirier, Gail Pope, Tosha Powell, Paula Prince, Keith Raines, Stacy Spence, Ronna Spoon, Jerry Stephens, Gary Valter, Josh Walton, Eddie Webb, Chris West, Elaine Wharton, Greg Wilson, the men and women who serve our country, the families of the ones who are fighting cancer, and the family of Paige Dellinger.

His word for the week: Psalm 27:1 "The Lord is my light and my salvation; whom shall I fear? The Lord is the strength of my life; of whom shall I be afraid? Praise God!!

FAITH

Worship Anyway by Jimmy Sadler

I've been watching two sisters play the game of life, and have come to realize the message behind the game. In fact, the message behind many games seems to be the one with the most money wins. Of course, you learn there are ups and downs in life. You come to find there are joyful surprises and unforeseen challenges. Still, at the end, if you have the most money, you have won the game of life. Who felt this was the goal of life in the first place? It seems to echo how many of us live.

As each took a turn, they exclaimed with great joy or they returned a bummed expression of loss or misfortune. There seem to be few cards that reflected simple joys. Christians should, of all people, be playing on an entirely different game board. In the Christian LIFE, people seek to finish well. They don't celebrate the misfortunes of others, they rely on each other for getting through obstacles. In order to win, you cross the line

having made wise and sometimes sacrificial choices. The goal becomes helping others reach the same place you are graciously crossing. When one player has a need, the other players chip in to meet it.

The expressions you would see would be more of steadfast faith in spite of the turn of the card. You would see hope in God regardless of the where the wheel stops. You would be told at the bottom of every card, worship anyway. We would hold a great reliance on the game maker to come through in the end, redeeming every turn, good or bad. In the words of Winston Churchill, "We make a living by what we get, but we make a life by what we give."

I want to live and play that kind of life. I want to trust that Jesus has a reason for the places I land, even when I don't understand. I want to hope in Him, even when my circumstances tell me to worry. I desire to worship Christ in every upswing and

downswing, because if I press on toward the goal, I will win alongside the other people playing with me.

I want the bottom of all my days to end with "worship anyway". The truest devotion is evident in times of discouragement, hurt or illness. God treasures that love that is offered out of pure intention, with the grit of one destined for glory not as one happy with new toys. In the Christian LIFE, there is the great assurance that our Savior has laid out the rules already and even won the prize on our behalf.

"It's not that I've already reached the goal or have already completed the course. But I run to win that which Jesus Christ has already won for me" (Philippians 3:12, GW).

Sunrise: Causes by David Coy

The one common denominator that joins us together regardless of our background is sorrow. Sorrow in one form or another, whether directly or indirectly comes to us all. Some suffer for extended periods of time while others for a short time. It comes to those who believe in the creator as well as to those who not. Within this journey may come questions, some which go on unanswered. One such question that gets a great deal of attention: What is the cause of suffering, or why am I suffering? I have heard many speculative answers to this question

from several different clients over the years. Here is my assessment. Some even ask what they think are related questions to the question above, such as; what is the meaning of it, what caused it, have I done something wrong, or why did God do this?

Some suffering comes as a result of a person's ignorance. In 1962 women took a drug which caused them to give birth to extremely malformed babies. Some suffering comes as a result of accidents. Christopher Reeves suffered as a result of a riding accident. Some

suffer as a result of their own poor choices. If we use drugs we may develop COPD or an addiction. Some people will suffer because of other people's poor choices. Such as Fetal Alcohol Syndrome. Some suffer because of the providence of Jehovah, as Joseph did, (Genesis 50:20). Some people will suffer because our bodies are subject to decay and death, (Hebrews 9:27). As death is natural, it is not accurate to blame God. How can we know our cause? We may not always, (Ecclesiastes 3:1-2;). This is Sunrise Aftercare, sunrise@sfdcures.com

OBITUARIES

FORREST DOYLE

JUNE 13, 1950 - MAY 23, 2017

Mr. Forrest Doyle, 66, of Bolivar, departed this life Tuesday, May 23, 2017 at Jackson-Madison County General Hospital.

The husband of Brenda Faye Jackson Doyle, who survives, he worked as a diesel mechanic for Doyle's Repair Service in Bolivar and also was a truck driver prior to becoming disabled. He was born June 13, 1950 in Hardeman County, son of the late Wood Thurman Doyle and Martha Elizabeth Stanley Doyle, living in Hardeman County over 30 years. He lived in Henderson for six years and the past five years in Jackson. He was a graduate of Bolivar Central High School and served in the US Army. He was Baptist in faith, attending Dixie Hills Baptist Church.

Visitation was Saturday, May 27, 2017 at Shackelford Funeral Directors in Bolivar.

In addition to his wife, whom he married on January 14, 1969, survivors include two daughters, Jennifer Doyle Sable of Jackson and Angie Doyle of Jackson; two sisters, Sadie Downen (Joe) and Linda Taylor (David), all of Bolivar; a brother, Junior Doyle (Annie Ruth) of Memphis; and two grandchildren, Edward Forrest Sable and Michael Troy Sable. Memorial donations in his name may be made to St. Jude Children's Research Hospital. (www.stjude.org/donate)

PEARLIE LEE LYNUM WILSON

JANUARY 25, 1933-MAY 12, 2017

Pearlie Lee Lynum Wilson of Nashville passed away at home on Friday, May 12, 2017 after a long illness. She was born on January 25, 1933 in Orange Hill, AL to the late Eddie Lee Lynum and Mizilla P. Coates Lynum.

Her funeral service was held on Friday, May 19, 2017 at 12:00 noon at Pleasant Green MB Church in Nashville with the Pastor in charge. Burial was in the Hills of Calvary Cemetery and Dixie Funeral Home was in charge of the professional service.

She was a long time member of Pleasant Green and attended Tennessee State University. She was employed at Tennessee State and later was the babysitter for many children in and around her neighborhood. She was referred to as the "world's best babysitter".

She is survived by her children Flexner (William) Isley, Zebedee Lynum, Victoria (Gerald) Lewis and Jacqueline Wilson; one brother; grandchildren, great-grandchildren; and many other relatives and friends that will truly miss her.

WILLIE DEE RIVERS

FEBRUARY 22, 1943-MAY 11, 2017

Willie Dee Rivers was born on February 22, 1943. He was the oldest of two born to the late, Mr. Willie B. and Mrs. Mattie Lee River. His sister, Mrs. Evelyn Pearson, also preceded him in death.

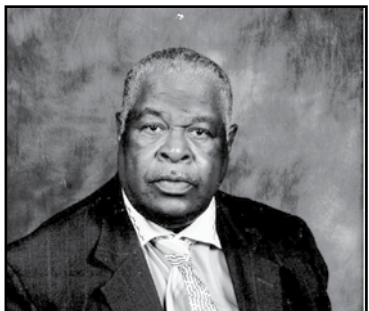

His funeral service was held on Tuesday May 16, 2017 at 12:00 noon at Old Bethel MB Church with Reverend Tommie Fleming delivering the eulogy. Burial was in the Independent Cemetery and Dixie Funeral Home was in charge of the professional service.

Willie accepted Christ at an early age at Antioch Baptist Church of Whiteville, TN, and later joined Old Bethel MB Church. He was a faithful deacon until his physical health prevented him from attending.

Willie was married to Mrs. Charritious Rivers who preceded him in death.

He was a loving father, grandfather, and great grandfather. The Life he lived had an impact upon everyone who came in contact with him.

Deacon Willie leaves to cherish his memories; five children: a daughter, Mrs. Shelia (Mario) Griggs; four sons: Mr. Kenneth (Linda) Rivers, Mr. Craig (Nikki) Rivers, Mr. Brian (Alexis) Rivers, Mr. Ryan (Anja) Rivers; one sister, Mrs. Dorothy Jean Rivers-Wilson; two aunts: Mrs. Francis Gooch of Lexington, TN; thirteen grandchildren, eight great grandchildren and two great great grandchildren; a host of other relatives and friends, especially the 'Hatchie Haven Gang'.

DOROTHY MCKINNIE MARTIN JUNE 10, 1935 - MAY 9, 2017

Dorothy "Dot" McKinnie Pannell Martin born June, 10 1935, 81 years old, beloved wife of Clyde H. Martin, died on May 9, 2017. A memorial service will be held June 10 at Mount Carmel Baptist Church, Chapel Hill, NC, with the Reverend Barrett Freeman officiating. There will be a private burial at the Mt. Carmel Church Cemetery. Funeral arrangements are being made by Walkers Funeral Home of Chapel Hill, NC.

Dot graduated from Lambert High School in Lambert Mississippi where she was salutatorian of her class, a cheerleader, football queen, basketball star, and student government leader. She was crowned "Miss Quitman County" and Mississippi State Farm Bureau Queen. She received her bachelor's degree with honors from Mississippi College, where she was "Miss Mississippi College," and active in many college activities. Her master's degree was from Ole Miss (University of Mississippi).

Dot was director of Food Service for Chapel Hill- Carrboro (NC) City Schools (1962-64), taught at the University of Maryland, was assistant director of Food Service for Prince George's (MD) County Schools, and retired in 1995 as Director of Food Service for Fairfax County (VA) Schools. Dot served a one-year appointment for the United States Department of Agriculture where she led the Nutrition and Technical Services Department in publishing guidance manuals.

Dot is the author of many states' departments of education guidance manuals, and authored several training manuals and textbooks, including Financial Management for Food Service Industry and School Foodservice Management for the 21st Century, which have six editions. Many college students and leaders in the industry consider this textbook "the Bible". Professionally Dot will be remembered for her contribution to the school foodservice industry through her writing, speaking, and training of thousands.

Dot started VEPA Consulting Company in 1981, later renamed in TEAM Associates, and retired from her company in 2003 when the company was sold. After living in Maryland and Virginia for 40 years, she and her husband, Clyde, moved to Aiken, SC in 2003. She was active in the Women of Woodside, served as president in 2008 and in several leadership positions, and worked with Habitat for Humanity in Women Built houses. She and Clyde moved to Chapel Hill, NC in 2016, where she was active in the Mt. Carmel Baptist Church. She was ordained a deacon and was secretary of Women on Missions.

In 2016 Dot was recognized with the School Nutrition Association and FAME Lifetime Achievement award in San Diego, CA. Earlier in her career Dot received the National Restaurant Association Silver Plate Award.

Dot was an only child and was preceded in death by her parents. She is survived by her husband Clyde Martin, daughter Katherine Duncan of Chapel Hill, North Carolina, and son Stephen VanEgmond and his wife Mary of Orlando, Florida. Her stepdaughter, Julia Kay Cashion and her husband, Dr. Donald Cashion of Virginia Beach, Virginia, preceded her in death. She is survived by six grandchildren—Lily and Tori VanEgmond of Orlando, Florida, Alex and Neal Duncan of Chapel Hill, North Carolina, Caroline Cashion and Ali Huffman of Virginia Beach, Virginia.

In lieu of flowers, the family asks that you please send memorial contributions to a scholarship fund set up by the School Nutrition Association in memory of Dot's contributions to school food service (<https://schoolnutrition.org/snf/>) and/or Mt. Carmel Baptist Church for Senior Ministries.

Tyler Bomar Memorial Scholarship

In Memory of Roscoe Hampton by Randy and Tina Plunk

CLIFTON POLK, JR. SEPTEMBER 26, 1951-MAY 3, 2017

Clifton Polk, Jr. was born September 26, 1951 to the late Mr. Clifton Polk, Sr. and Mrs. Mary Crowder in Bolivar, TN. He was the second son of three boys. His older brother preceded him in death.

His funeral service was held on Saturday, May 13, 2017 at 1:00 pm at Campbell Chapel MB Church with Elder Johnnie C. Nelson delivering the eulogy. Burial was in the Bolivar Community Cemetery and Dixie Funeral Home was in charge of the professional service.

Clifton confessed hope in Christ at Campbell Chapel MB Church of Bolivar, TN at an early age.

Clifton graduated from Bolivar Industrial High School. Shortly after graduating, he was drafted into the United States Army and served two terms during the Vietnam War. While serving his country, he was awarded six Medals and Parachutist Badge. Clifton also received the Good Conduct Medal and Bronze Star Medal. After retiring from active duty, he served in the National Guard his rank was SSG.

Clifton was a loving and compassionate man, he and his brother, Amos, were as close as brothers could be. He was blessed with a wonderful daughter, Jessica, whom he loved dearly.

"Jack," will be greatly missed by many. His mild-mannered and caring spirit touched the lives of many.

On May 3rd, God in his infinite wisdom, dispatched an angel to Northbrooke Health Care & rehabilitation Center to separate the soul of Clifton from his ailing body and carried him to a place of rest to await the return of his Lord and Savior.

Loving and fond memories of Clifton will be cherished by his beloved daughter, Ms. Jessica Polk and her mother, Ms. Shirley Futrell Talialero; two step-daughters: Jametria Jone and Crenesha Futrell; three grandsons: Bryndarious nad Michael Futrell, and Jahzar McClellan; one brother, Mr. Amos Wayne Polk; one niece, Disa Yancy; and a host of cousins, other relatives and friends.

YOU CAN LISTEN TO OBITUARIES FROM SHACKELFORD FUNERAL DIRECTORS EACH MORNING AT 8:35 ON WMOD (96.7-FM) RADIO

KEVIN WOODS MARCH 1, 1958-MAY 21, 2017

Mr. Kevin Woods of Whiteville passed away on Wednesday May 21, 2017. He was born on March 1, 1958 in East Chicago, Indiana to Hattie Woods Harvey and the late Noble Woods.

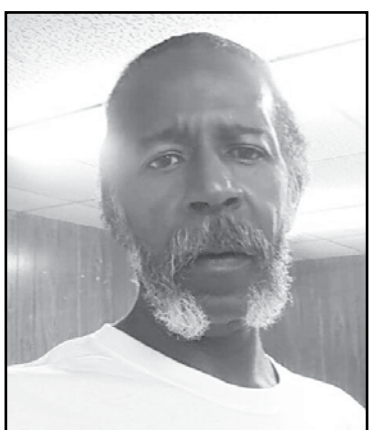

His funeral service was held on Saturday May 27, 2017 at 12:00 noon at Johnson Chapel CME church-Whiteville with Reverend Jerry Crisp delivering the eulogy. Burial was in the church cemetery and Dixie Funeral Home www.dixiefuneralhome.com was in charge of the professional service.

Kevin attended several schools in Hardeman County. He will be remembered by his friends for his love of basketball, which he played in school and the love of softball, which he played with the Outlaw team.

Kevin was preceded in death by his grandparents; Galveston Woods, J.B. and Rosie Gibbs. One sister and one brother also preceded him in death.

Kevin accepted Christ at an early age and joined Smith Chapel M.B. Church and never lost his Faith in God and in the Power of Prayer.

Those who will cherish precious memories of Kevin are: his devoted mother; Hattie Harvey: his stepfather; J.C. Harvey: his stepmother; Betty Woods: his loving grandmother who shared a special relationship with him until the end; Mary Ethel Johnson: three brothers; Antwan (Erin) Woods, Wallace (Lenora) Harvey and Antonio (Sandra) Harvey: three sisters; Renay Gibbs, Malissa Hudson and Tanya Fields: six aunts, four uncles and a host of nieces, nephews, cousins and friends.

EDNA'S PAGE

OBITUARIES CONT. FROM A5

SUE GIBSON JANUARY 24, 1942-MAY 20, 2017

Sue Gibson, age 75, of Bolivar, departed this life Saturday morning, May 20, 2017 at Bolivar General Hospital.

Services were held Tuesday, May 23, 2017, at 11:00 a.m., at Shackelford Funeral Directors of Bolivar. Burial was held at West Memorial Cemetery in Saulsburry, TN.

A native of Hardeman County, she was born January 24, 1942 to the late Carl Franklin Majors and Tennie Lee Carolyn Callahan Majors and lived most of her life in Hardeman County. She married Glen Gibson, who survives, on December 25, 1968 and was a retired appointment clerk with the State of Tennessee, retiring in 2004. She loved to travel and listen to Southern Gospel music, and was best known for her good cooking, sewing and crocheting, and her intense love for her family. Mrs. Gibson was a member of Calvary Baptist Church.

Survivors include her husband, Glen Gibson; a daughter, Susan Gibson of Bolivar; a sister, Joyce White (Hugh) of Bolivar; 7 nieces and 8 nephews; and two grandchildren, whom she dearly loved, Caleb & Rachel Montgomery; numerous great nieces and great nephews and two great great nieces. Memorial donations in her name may be made to Calvary Baptist Church.

CHARLES MCALPIN

MARCH 4, 1953-MAY 24, 2017

Mr. Charles McAlpin, age 64 of Middleton, Tennessee passed away Wednesday, May 24, 2017. He was a native and life-long resident of Hardeman County, the son the late Golden and Jubie Howell McAlpin.

Funeral services will be held Sunday, May 28, 2017, at 4:00 p.m. at Shackelford Funeral Directors in Bolivar, TN. Visitation will be held Saturday evening from 5:30 to 9:00 p.m. and Sunday afternoon from 2:00 to 4:00 p.m. Burial will follow at Porter's Creek Cemetery.

Mr. McAlpin attended Bolivar schools until 11th grade and was a 1971 graduate of Middleton High School. He was a member of the New Bethany Church of Christ and on August 10, 1973 was united in marriage to Sandra Diane Trnum. Shag was a cab fabricator at Thysen-Krupp Elevators in Middleton where he had worked for 25 years. In his leisure time, he enjoyed hunting, fishing, gardening and working on vehicles with his grandkids.

He leaves his wife, Sandra Diane Trnum McAlpin; his son, Jeremy Shane (Lori) McAlpin; two sisters, Carolyn Townsend and Barbara (Mike) Stamey; and two grandchildren, Morgan and Austin McAlpin, all of Middleton.

In addition to his mother and father, he was preceded in death by a brother-in-law, Roger Townsend.

GO FIGURE! by Linda Thistle

The idea of Go Figure is to arrive at the figures given at the bottom and right-hand columns of the diagram by following the arithmetic signs in the order they are given (that is, from left to right and top to bottom). Use only the numbers below the diagram to complete its blank squares and use each of the nine numbers only once.

PAIGE DELLINGER FEBRUARY 15, 1994-MAY 24, 2017

Paige Dellinger, age 23 of Middleton, Tennessee, passed away Wednesday evening, May 24, 2017.

Funeral services were held Sunday, May 28, 2017 at Shackelford Funeral Directors of Bolivar with Brian Smith officiating. Interment followed in Hebron Cemetery near Middleton.

She was born in Jackson and lived her entire life in Hardeman County. Paige was the daughter Johnny (Beth) Dellinger of Middleton and Faye L. (Wayne) Cannon of Whiteville. She was a 2012 graduate of Middleton High School and was a CNA at NHC-Somerville. She was also a former manager at Pizza Hut in Bolivar.

Paige's family describes her as a caring and outgoing person who loved spending time with her family and making others laugh. She spent much of her leisure time on shopping trips with her Aunt Randi and playing with her children.

In addition to her parents and their respective spouses, she leaves five sisters, Marie, Ashlynn (Gary Ivy) and Samantha Baker, all of Middleton, Allison and Chloe Cannon, both of Whiteville; her brother, Jerry Cannon of Whiteville; four step-sisters, Jesse and Cassie Sisco, both of Selmer and Rebecca and Lindsey Cannon, both of Somerville; one step-brother, Dylan Cannon of Somerville; an aunt, Randi (Brian) Smith of Bolivar; uncles, Kevin Dellinger of Middleton and Keith Dellinger of Jackson; cousins, Kayla and Kendall Dellinger, Addyson, Dalton, Brianna and Ally Smith, all of Bolivar; and nieces and nephews, Toby Hammons, Lilly Smith and Kaylin Ivy.

She was preceded in death by her grandmother, Jamie Bryant Dellinger; and her uncle, Mark Bryant. Memorials may be sent to the American Heart Association (heart.org) or the American Cancer Society (cancer.org).

What Does Conservative Investing Mean to Older Investors?
 If you're a certain age, or getting close to it, you might hear something like this: "Now that you're older, you need to invest more conservatively." But what exactly does this mean?
 For starters, it's useful to understand that your investment preferences and needs will indeed change over time. When you're first starting out in your career, and even for a long time afterward, you can afford to invest somewhat aggressively, in stocks and stock-based investments; because you have time to overcome the inevitable short-term market drops. At this stage of your life, your primary concern is growth – you want your portfolio to grow enough to provide you with the resources you'll need to meet your long-term goals, such as a comfortable retirement.
 But when you finally do retire, and perhaps for a few years before that, your investment focus likely will have shifted from accumulation to preservation. And this certainly makes some sense. Even though you may spend two, or even three, decades in retirement, you actually have many shorter time frames for withdrawing money – that is, selling investments – from your retirement accounts, such as your 401(k) and IRA. In fact, you may be taking withdrawals every month – and you don't want to be forced to sell investments when their price is down. Consequently, you'll want a portfolio that's less susceptible to market downturns. This means that you may need to reduce the percentage of stocks in your investment mix and increase your holdings in investments that have less growth potential but offer greater stability of principal, such as bonds.
 If you follow this formula, you will have become a more conservative investor. But this evolution – from aggressive to conservative – isn't that simple, or at least it shouldn't be. If, as mentioned above, you are retired for two or three decades, you will have to deal with inflation. And even at a relatively mild 3 percent annual inflation rate, your purchasing power will decline by about half in just 25 years. This is a real threat to retirees, who, unlike active employees, can't count on increases in earned income to overcome increasing costs of living.
 Given this reality, you will have to find your sources of rising income in your investment portfolio. One possibility: Dividend-paying stocks, some of which have increased their dividends for many years in a row. Still, like all stocks, these dividend payers can lose value from year to year, and they can also reduce, or even eliminate, dividends at any time. In other words, they aren't risk-free – which brings us back to the question of how "conservative" of an investor you can really afford to be when you're retired.
 In the final analysis, there's no simple answer. On one hand, you probably shouldn't be as aggressive an investor as you were when you were much younger and still working. On the other hand, if you were to primarily own certificates of deposit and U.S. Treasury securities, you might face the prospect of outliving your money. Ultimately, you'll need to maintain a balanced portfolio that helps you control risk today while providing you with growth opportunities for tomorrow.

NOTICE OF FORECLOSURE SALE

STATE OF TENNESSEE, HARDEMAN COUNTY

WHEREAS, Brooks Murdock, Jr. executed a Deed of Trust to Mortgage Electronic Registration Systems, Inc., as nominee for Accredited Home Lenders, Inc., Lender and Mary L. Aronov, Esq., Trustee(s), which was dated September 24, 2003 and recorded on October 3, 2003 in Book 596, Page 637, Hardeman County, Tennessee Register of Deeds.

WHEREAS, default having been made in the payment of the debt(s) and obligation(s) thereby secured by the said Deed of Trust and the current holder of said Deed of Trust, U.S. Bank Trust, N.A., as Trustee for LSF9 Master Participation Trust, (the "Holder"), appointed the undersigned, Brock & Scott, PLLC, as Substitute Trustee, by an instrument duly recorded in the Office of the Register of Deeds of Hardeman County, Tennessee, with all the rights, powers and privileges of the original Trustee named in said Deed of Trust; and

NOW, THEREFORE, notice is hereby given that the entire indebtedness has been declared due and payable as provided in said Deed of Trust by the Holder, and that as agent for the undersigned, Brock & Scott, PLLC, Substitute Trustee, by virtue of the power and authority vested in it, will on June 6, 2017, at 1:00PM at the usual and customary location at the Hardeman County Courthouse, Bolivar, Tennessee, proceed to sell at public outcry to the highest and best bidder for cash, the following described property situated in Hardeman County, Tennessee, to wit:

The land referred to in this Commitment is described as follows:

THE FOLLOWING DESCRIBED REAL ESTATE SITUATE IN THE CITY OF BOLIVAR, 1ST CIVIL DISTRICT OF HARDEMAN COUNTY, TENNESSEE, TO WIT: LOT 20 OF MITCHELL SUBDIVISION: BEGINNING AT A POINT IN THE WEST MARGIN OF ELM STREET, SAID POINT BEING 339.5 FEET FROM THE SOUTH MARGIN OF FAIR-GROUNDS STREET, THENCE (1) SOUTH 8 DEGREES 38' 17" WEST WITH ELM STREET A DISTANCE OF 90 FEET, THENCE (2) NORTH 81 DEGREES 21' 43" WEST WITH THE NORTH LINE OF LOT 21 A DISTANCE OF 115 FEET, THENCE (3) NORTH 8 DEGREES 38' 17" EAST A DISTANCE OF 90 FEET, THENCE (4) SOUTH 81 DEGREES 21' 43" EAST A DISTANCE OF 115.00 FEET TO THE POINT OF BEGINNING, CONTAINING 10,310 SQUARE FEET.

NOTWITHSTANDING THE ABOVE DESCRIPTION, SAID ACREAGE IS FOR LEGAL PURPOSES ONLY AND DOES NOT GUARANTEE THE QUANTITY OF LAND DESCRIBED HEREIN.

THIS BEING THE SAME PROPERTY CONVEYED BY QUITCLAIM DEED FROM JAMES EARL MURDOCK TO BROOKS MURDOCK, JR., DATED APRIL 11, 2002 AND RECORDED IN BOOK P17 AT PAGE 809 IN THE

OFFICE OF THE REGISTER OF DEEDS OF HARDEMAN COUNTY, TENNESSEE.

PARCEL: 0700-D-001.27
PROPERTY ADDRESS: 527 ELM STREET, BOLIVAR, TENNESSEE 38008

Parcel ID Number: 0700 D 001.27
Address/Description: 527 Elm Street, Bolivar, TN 38008.

Current Owner(s): Brooks Murdock, Jr..

Other Interested Party(ies): Bank of America, N.A..

The sale of the property described above shall be subject to all matters shown on any recorded plat; any and all liens against said property for unpaid property taxes; any restrictive covenants, easements or set-back lines that may be applicable; any prior liens or encumbrances as well as any priority created by a fixture filing; a deed of trust; and any matter than an accurate survey of the premises might disclose; and

All right and equity of redemption, statutory or otherwise, homestead, and dower are expressly waived in said Deed of Trust, and the title is believed to be good, but the undersigned will sell and convey only as Substitute Trustee. The right is reserved to adjourn the day of the sale to another day, time, and place certain without further publication, upon announcement at the time and place for the sale set forth above.

This office is attempting to collect a debt. Any information obtained will be used for that purpose.

IN THE JUVENILE COURT OF HARDEMAN COUNTY, TENNESSEE

STATE OF TENNESSEE
DEPARTMENT OF CHILDREN'S SERVICES,
PETITIONER

vs.

NO. 17-2

Shaunte Blair aka Edwards
[Unknown Address],
RESPONDENT

IN THE MATTER OF:
Shantanay Zy'Kiyah Lewis, D.O.B. 10/14/12
Shavontae Ta'Quarius Lewis, D.O.B. 10/14/12

Children Under Eighteen (18) Years of Age.

ORDER OF PUBLICATION

It appearing to the Court from the allegations of the Petition in this cause and the affidavit of the Petitioner that the whereabouts of the Respondent, Shaunte Blair aka Edwards, are unknown and that ordinary process of law cannot be served upon him,
It is, therefore, ordered that Respondent, Shaunte Blair aka Edwards, be served by publication of the following notice for four (4) consecutive weeks in the Bolivar Bulletin Times, a newspaper circulated in Hardeman County, Tennessee.

TO SHAUNTE BLAIR AKA EDWARDS:

The State of Tennessee, Department of Children's Services, has filed a petition against you seeking to terminate forever your parental rights to Shantanay Zy'Kiyah Lewis and Shavontae Ta'Quarius Lewis, born October 14, 2012, on the grounds that you have willfully abandoned these children and for other reasons. It appears that ordinary process of law cannot be served upon you because your whereabouts are unknown. You are, therefore, ordered to respond by appearing in Court or filing an Answer to the Petition filed against you. A copy of the Petition may be obtained at the office of the Juvenile Court of Hardeman County, Tennessee, in Bolivar, Tennessee. This notice will be published for four consecutive weeks. The last date of publication will be 6/8/17. You must appear in Court on 7/20/17 at 9:00 a.m. to appear or defend or file an Answer within 30 days or a Default Judgment or judgment on the facts will be taken against you and a hearing to terminate your parental rights will be set. All future hearings and/or documents filed in this cause shall be filed with the clerk and shall be considered as service upon you. You may request your copy from the clerk.

ENTERED this 11th day of May 2017.

New K9's Put into Service in Hardeman County

Scent Evidence K9 introduced Chloe and Mandy to the Hardeman County Sheriff's Department K9 team during a recent 2-day training exercise in West Tennessee. Chloe and Mandy are both scent discriminate bloodhounds and were donated by local community advocates, Paul and Tammy Grider, to help the law enforcement agency respond and locate missing persons in the area. Former FBI Forensic Canine Specialist and Scent Evidence K9 CEO, Paul Coley, led the training program for the new K9 handler team which included the use of scent preservation kits, missing persons trailing techniques and how technology can be used to

bring the lost home safely. For more information of how to protect those you love and care for visit scentevidencek9.com.

Photo left to right: Sheriff John

Doolen, Paul Coley, Donna Coley, Deputy Brandon Allen, Captain Brian Vandiver, Chief Deputy Billy Davis and Deputy Timmy Howell.

As Another Gets His Retirement

At the May 9th city council meeting, Bolivar Police Chief Pat Baker approached the city council and asked permission to retire the Bolivar Police Department's K-9 Unit. Anything with a price tag over \$2,500 that uses city funds must be appropriated, so Chief Baker needed the permission to make the judgment call for Boris, the city's police dog which originally cost the city \$7,500.

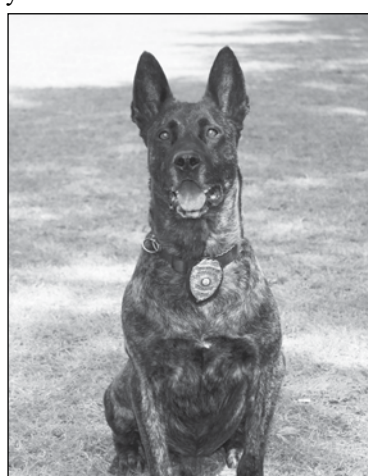

Boris, a Dutch Shepard, was born in the Netherlands June 23, 2008. He was bought by the Bolivar Police Department in 2009 and imported through a company in Little Rock, AR. He's been with the Bolivar Police Department his entire career and through three handlers; Shane Swift, Chris Burkeen, and placed with his forever partner Donny McElhone in September 2015. Boris serves as a "dual-purpose" dog in apprehension, tracking, and is trained to find methamphetamine, cocaine, heroin, and marijuana. Responding to Dutch commands along with Officer McElhone's body language, his presence alone on

the streets would make criminals stop in their tracks.

Police working dogs are usually classified into one group or another; narcotics or patrol work. Narcotics dogs tend to work longer than patrol dogs due to patrol work being so much more stressful on the dog. The typical run for a patrol dog is usually 6-9 years, but with Bolivar having so few traffic incidents that a dog needs to be involved in, Boris has mainly been used as a narcotics dog. Officer McElhone's K-9 patrol car went down, and investing the money in a totally new K-9 unit would overwhelm the cost of pushing Boris' retirement back a couple of years, making it harder on the dog.

Officer McElhone says, "Boris has a totally different temperament than most police dogs. He's a very "know the job when you're on the job" and "know when you're off the job" type of dog. He knows when it's time to work and when it's time to rest. For a patrol dog, that's an extremely good quality to have. It's rare for a dog to be

by Jessica Simmons

able to turn it off and on like that."

Chief Baker asked city council members to allow Boris to retire to live with his handler due to that is what is customary in these situations. It passed with an all motion carried vote. "He's a part of our family and has been since day one. He's sketchy around people he doesn't know, but he's extremely comfortable around us. We trust Boris 100% around our kids, even the cats. He'll live the rest of his days as a pet, as a member of our family. He just gets to be a dog now."

Program Expunges Criminal Records

Volunteers came together for a free legal clinic at Campbell Chapel Baptist Church on April 8 to help members of the public in Bolivar get their criminal records expunged. Volunteer lawyers met with and prepared court forms for almost 40 clients who qualified for free expungements. Judge Boyette Denton, Hardeman County General Sessions Judge, was also on-site. Judge Denton held court at the church so people were able to complete the expungement process in one day and with the help of a volunteer lawyer. The event was one of over 50 events in March and April as part of the Tennessee Supreme Court's public awareness campaign.

Tennessee Supreme Court Justice Roger Page, Representative Johnny

Shaw, and Bishop Jessie Williams welcomed everyone and spoke of their support for the clinic and similar projects. The church and its members opened its doors, providing advertising for the clinic, free space to meet, and lunch for everyone. Special thanks to Zulfat Suara, Bolivar resident and member of the Tennessee Faith and Justice Alliance, for her help coordinating the event. Special thanks also to Hardeman County Circuit Court Clerk Linda K. Fulghum and her staff for their help leading up to the clinic.

The Hardeman County Expungement Clinic was a project of the Tennessee Faith and Justice Alliance, an initiative of the Tennessee Supreme Court Access to Justice Commission, Campbell Chapel Baptist Church, Hardeman County

NAACP, Advance Business Consultants CPA, Representative Johnny Shaw, and Hardeman County General Sessions Judge Boyette Denton.

BIBLE TRIVIA

ANSWERS: 1) Old; 2) Nebuchadnezzar; 3) Habakkuk; 4) 11th; 5) Oak tree; 6) Gardener

FLASH BACK

1. Gale Garnett, in 1964. The singer claims, "I will never love you," but promises to stay one year, in contrast to sappy songs that promised eternal love. Her song sold more than a million copies received a Grammy for Best Folk Recording.
2. He wants his love to come back to him. Percy Sledge's 1969 song reached only No. 93 on the U.S. Hot 100 chart.
3. Seals and Crofts, 1976.
4. Chicago, in 1973. The song was penned by band members Peter Cetera and James Pankow.
5. "Cry Like a Baby," by the Box Tops in 1968. After an unsuccessful nightlong marathon attempt to get a new song written, the line "I could just cry like a baby" came out, and the song was completed in 90 minutes.

TRIVIA TEST

The Editor's Inbox...Letters to the Editor

Have you ever had to dial 911? At some point, most of us likely have already done so or will have too in the future. When we dial 911, it means that either we or someone else is in a dire and often time frightening situation. We need help and we want that help to get to us just as fast as it can possibly arrive.
So who do we look too to come to us in such desperate circumstances? We look for our FIRST RESPONDERS! Whether it be the police, the fire department, sheriff's deputies, ambulance attendants or the rescue squad; it is these brave men and women who rush to our aid to give assistance in time of our greatest need.
In appreciation for all that the First Responders do for us, parishioners of St. Mary Catholic Church in Bolivar came together Saturday morning, May 13th to prepare box lunches for all Bolivar First Responders on duty that day. The delivery of giant New Orleans style Mufaletta sandwiches, homemade cookies, chips and a drink was lead by St. Mary's pastor, Reverend Wayne Arnold along with several other parishioners.
For all who answer our 911 plea for help, we wish to offer our sincere thanks to you. May Christ always keep you safe and from harm.
Parishioners of St. Mary Catholic Church

OUR COUNTY

Adoptable Animal of the Week by Sara Vonderheide

Lamar (#16336) is a male hound mixed breed. He is about five years old and weighs around 50 pounds. He has been treated for heartworms and is a happy, healthy boy now. He is very calm and loves attention. If you are looking for an adult dog to be your companion, Lamar might be the one. He is a great dog and has lots of fans at the shelter. He is a handsome fella who is looking for his forever home. If you are interested in adopting Lamar or any of our wonderful dogs at the shelter, please contact a volunteer: Charla Cooper 731-234-4421 or Jennifer Smallwood 731-609-0408. You can also check out our Facebook page, Hardeman Adoptable Animals, Inc. You can also come to the shelter. We are located inside the county landfill (Walton Road), and volunteers are there between 9-1 each day. HAA, Inc. is a 501©3 not-for-profit organization. Adoption fees are \$125, and this includes all vaccines, spay/neuter, and care while at the shelter.

If you would like to send a memorial or an honorarium to HAA, you can mail a check to HAA, Inc. at PO Box 513, Bolivar, TN 38008. Or you can donate through PayPal (see our Facebook page). All donations are tax deductible. Please specify whether you are donating to the building fund or the general operational fund and who the donation is in memory or in honor of. We also like to send acknowledgments of such gifts, so please include the name and address of who to send a note to.

Please Do Not Litter

Hardeman County has a serious litter problem. In an effort to stop littering on our roadsides, the Tennessee Department of Transportation Litter Program and the Hardeman County Sheriff's Department have teamed up to fight litter. Litter fines could be assessed up to \$500.00. Litter Cameras are being utilized along our roadsides to catch those committing litter offenses. Please spend time with your children explaining the environmental damages caused by litter. Working together, we can keep Hardeman County Beautiful.

Paid for by the TDOT Litter Program

The Only Perfect Team in Dizzy Dean

The Dizzy Dean Girls Hyman Tire Service team will finish the season as the only undefeated team in either Bolivar league, going 11-0 in the 8U league.

Hyman's final game on May 30 was rained out with them leading 5-1 over Star Physical Therapy.

The Dizzy Dean girls league will play one final game on June 1, as Stenz (7-5) will face Two Little Hoots (5-7).

Other league winners for the girls were H&R Block (9-2-1), who came from a 7-2 deficit on May 30 to win 9-7 over Maria's Pizza and Wings (2-9-1); and The Bank of Hardeman County who finished at 9-1.

In the boys leagues, only one league champion had been decided with a week left in the regular season, as The Gym Health and Fitness Center beat Rotary 13-12 on May 25 to clinch first place.

In the 6U league, Farmers Insurance (10-1) hold a two and a half game advantage over Nelms Auto Body, but the two teams are scheduled to face one another on June 2 and with a win, Nelms would hold the tie breaker as the teams head into the final weekend.

The 10U league has WMOD (7-4) and Merchants and Planters Bank (7-4) at the top with one game remaining. WMOD will face Hooper Sawmill and Merchants and Planters will face VFW on June 1 in the final games of the season. WMOD holds the tie breaker, defeating Merchants and Planters three out of four games in the season.

The 12U league had Bolivar Insurance and Real Estate (7-2) at the edge of clinching, but will either need a victory over The Bank of Hardeman County (1-9) or a loss by Star Physical Therapy (7-4) to end the season in first place. Three games remain on the schedule, all involving Bolivar Insurance and Real Estate.

Star PT Hardeman County Sports Notes

Coaching changes at Fayette Academy brought new faces to the Vikings for the coming seasons. Fayette Academy announced Coach Rodney Patterson as the new varsity baseball coach for the 2017 - 2018 school year. Coach Patterson's 30 years of teaching and coaching experience makes him an asset both in the classroom and on the field. Coach Patterson served as the head baseball coach at Munford High School where his team was ranked 8th in the nation by USA Today. Coach Patterson also served as the head coach for several years at Bartlett High School before joining Arlington High School as the head junior varsity coach where he has served for the last ten years. Coach Patterson completed his graduate degree at the University of Memphis after earning his undergraduate degree in education from the University of Tennessee at Martin.

Fayette Academy has announced Terry Greene as the new varsity boys' and girls' soccer coach. Coach Greene is a native Memphian. He played college soccer and also played overseas for the Wiesbaden Fliers in Wiesbaden, Germany while in the military. He retired with 24 years of military service, 12 years of active service, and 12 years of reserve duty. Coach Greene is a Vietnam Combat Veteran and served with a Fleet Hospital Unit during Desert Storm. After teaching high school economics, world geography, and coaching high school boys' and girls' soccer in Shelby County Schools, Memphis City Schools, and Louisiana Schools, he retired after 25 years of service. Coach Greene has coached over 600 soccer games.

BOLIVAR WATER NOTICE

Bolivar Water Department Water Quality Report for 2016

Is my drinking water safe?

Yes, our water meets all of EPA's health standards. We have conducted numerous tests for over 80 contaminants that may be in drinking water. As you'll see in the chart on the back, we only detected seven of these contaminants. We found all of these contaminants at safe levels.

What is the source of my water?

Your water, which is ground water, comes from a sand water. Our goal is to protect our water from contaminants and we are working with the State to determine the vulnerability of our water source to **potential** contamination. The Tennessee Department of Environment and Conservation (TDEC) has prepared a Source Water Assessment Program (SWAP) Report for the untreated water sources serving water to this water system. The SWAP Report assesses the susceptibility of untreated water sources to **potential** contamination. To ensure safe drinking water, all public water systems treat and routinely test their water. Water sources have been rated as reasonably susceptible, moderately susceptible or slightly susceptible based on geologic factors and human activities in the vicinity of the water source. The Bolivar Water Department sources rated as reasonably susceptible to potential contamination.

An explanation of Tennessee's Source Water Assessment Program, the Source Water Assessment summaries, susceptibility scorings and the overall TDEC report to EPA can be viewed online at <https://www.tn.gov/environment/article/wr-wq-source-water-assessment> or you may contact the Water System to obtain copies of specific assessments.

A wellhead protection plan is available for your review by contacting Bobby Hensley at the Bolivar Water Department weekdays.

Why are there contaminants in my water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Este informe contiene información muy importante. Tradúscalo o hable con alguien que lo entienda bien.

For more information about your drinking water, please call Bobby Hensley at 658-2553.

How can I get involved?

Our Water Board meets on the second Tuesday of each month at 5:30 pm at the Bolivar Municipal Center. Please feel free to participate in these meetings.

Is our water system meeting other rules that govern our operations?

The State and EPA require us to test and report on our water on a regular basis to ensure its safety. We have met all of these requirements. Results of unregulated contaminant analysis are available upon request. We want you to know that we pay attention to all the rules.

Other Information

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.

Water Quality Data

What does this chart mean?

- MCLG** - Maximum Contaminant Level Goal, or the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
- MCL** - Maximum Contaminant Level, or the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect.
- MRDL**: Maximum Residual Disinfectant Level or MRDL: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for the control of microbial contaminants.
- MRDLG**: Maximum residual disinfectant level goal. The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
- AL** - Action Level, or the concentration of a contaminant which, when exceeded, triggers treatment or other requirements which a water system must follow.
- Below Detection Level (BDL)** - laboratory analysis indicates that the contaminant is not present at a level that can be detected. Non-Detects (ND) - laboratory analysis indicates that the contaminant is not present.
- Parts per million (ppm) or Milligrams per liter (mg/l) -- explained as a relation to time and money as one part per million corresponds to one minute in two years or a single penny in \$10,000.
- Parts per billion (ppb) or Micrograms per liter - explained as a relation to time and money as one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.
- Million Fibers per Liter (MFL) - million fibers per liter is a measure of the presence of asbestos fibers that are longer than 10 micrometers.
- TT** - Treatment Technique, or a required process intended to reduce the level of a contaminant in drinking water.
- AVG** - Average
- RTCR** - Revised Total Coliform Rule. This rule went into effect on April 1, 2016 and replaces the MCL for total coliform with a Treatment Technique Trigger for a system assessment.

Contaminant	Violation Yes/No	Level Found	Range of Detections	Date of Sample	Unit Measurement	MCLG	MCL	Likely Source of Contamination
Total Coliform Bacteria	No	0		2016		0	<2 positive samples	Naturally present in the environment
Total Coliform Bacteria ¹ (RTCR)	No	1		April 2016		0	TT Trigger	Naturally present in the environment
Asbestos ²	No	<0.102		2011	MFL	7	7	Decay of asbestos cement water mains; erosion of natural deposits
Copper ³	No	0.01 90 th Percent		2014	ppm	1.3	AL=1.3	Corrosion of household plumbing systems; erosion of natural deposits; leaching from wood preservatives
Fluoride	No	0.498 AVG	0.44-0.63	2016	ppm	4	4	Erosion of natural deposits; water additive which promotes strong teeth; discharge from fertilizer and aluminum factories
Lead ³	No	0.9 90 th Percent		2014	ppb	0	AL=15	Corrosion of household plumbing systems, erosion of natural deposits
Sodium	No	9.1		2014	ppm	N/A	N/A	Erosion of natural deposits; used in water treatment
TTHM [Total trihalomethanes]	No	2.24		2016	ppb	n/a	80	By-product of drinking water chlorination
Haloacetic Acids (HAA5)	No	<2		2016	ppb	N/A	60	By-product of drinking water disinfection.
Chlorine	No	AVG 1.5	1.1-2.0	2016	ppm	MRDLG 4	MRDL 4	Water additive used to control microbes.

Iron: Iron occurs naturally in our raw water and occasionally accumulates in the distribution system. Iron shows up as "red" or "rusty" water at your tap. Although you do not want to drink water that is not clear, iron is not considered to be a hazard to your health. We test for iron daily and it is usually around 0.1 ppm. The aesthetic limit for iron is 0.3 ppm.

¹During the month of April 2016, one of six routine sample tested positive for total coliform. All three repeat samples tested negative.

²The laboratory did not meet the required detection limit therefore the data does not necessarily reflect that the water is contaminated to a level approaching the MCL.

³During the most recent round of Lead and Copper testing, only 0 out of 20 households sampled contained concentrations exceeding the action level.

HORNSBY WATER NOTICE

Hornsby Water System Water Quality Report for 2016

Is my drinking water safe?

Yes, our water meets all of EPA's health standards. We have conducted numerous tests for over 80 contaminants that may be in drinking water. As you'll see in the chart on the back, we only detected seven of these contaminants. We found all of these contaminants at safe levels.

What is the source of my water?

Your water, which is ground water, comes from Selmer Utility Division, whose water comes from a sand aquifer. Our goal is to protect our water from contaminants and we are working with the State to determine the vulnerability of our water source to **potential** contamination. The Tennessee Department of Environment and Conservation (TDEC) has prepared a Source Water Assessment Program (SWAP) Report for the untreated water sources serving water to this water system. The SWAP Report assesses the susceptibility of untreated water sources to **potential** contamination. To ensure safe drinking water, all public water systems treat and routinely test their water. Water sources have been rated as reasonably susceptible, moderately susceptible or slightly susceptible based on geologic factors and human activities in the vicinity of the water source. The Hornsby Water System sources rated as reasonably susceptible to potential contamination.

An explanation of Tennessee's Source Water Assessment Program, the Source Water Assessment summaries, susceptibility scorings and the overall TDEC report to EPA can be viewed online at <https://www.tn.gov/environment/article/wr-wq-source-water-assessment> or you may contact the Water System to obtain copies of specific assessments.

A wellhead protection plan is available for your review by contacting Bobby Hensley of the Hornsby Water System at 658-6188.

Why are there contaminants in my water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Este informe contiene información muy importante. Tradúscalo o hable con alguien que lo entienda bien.

For more information about your drinking water, please call Bobby Hensley at 731-658-6188.

How can I get involved?

Our Water Board meets on the first Tuesday of each month at 7:00 pm at City Hall. Please feel free to participate in these meetings.

Is our water system meeting other rules that govern our operations?

The State and EPA require us to test and report on our water on a regular basis to ensure its safety. We have met all of these requirements. Results of unregulated contaminant analysis are available upon request. We want you to know that we pay attention to all the rules.

Other Information

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Contaminants that may be present in source water:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.

- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, and septic systems.
- Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA and the Tennessee Department of Environment and Conservation prescribe regulations which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

Do I Need To Take Special Precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have under-gone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about not only their drinking water, but food preparation, personal hygiene, and precautions in handling infants and pets from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Lead in Drinking Water

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Hornsby Water System is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/lead/protect-your-family%23water%23water>

Water System Security

Following the events of September 2001, we realize that our customers are concerned about the security of their drinking water. We urge the public to report any suspicious activities at any utility facilities, including tanks, fire hydrants, etc. to 609-0997.

Think before you flush!

Flushing unused or expired medicines can be harmful to your drinking water. Properly disposing of unused or expired medication helps protect you and the environment. Keep medications out of Tennessee's waterways by disposing in one of our permanent pharmaceutical take back bins. There are nearly 100 take back bins located across the state, to find a convenient location please visit: <https://www.tn.gov/environment/article/sp-unwanted-pharmaceuticals>

Water Quality Data

What does this chart mean?

- **MCLG** - Maximum Contaminant Level Goal, or the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
- **MCL** - Maximum Contaminant Level, or the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect.

The aesthetic limit for iron is 0.3 ppm.

¹During the most recent round of Lead and Copper testing, 0 out of 30 households sampled contained concentrations exceeding the action level.

TOONE WATER NOTICE

Toone Water System Water Quality Report for 2016

Is my drinking water safe?

Yes, our water meets all of EPA's health standards. We have conducted numerous tests for over 80 contaminants that may be in drinking water. As you'll see in the chart on the back, we only detected four of these contaminants. We found all of these contaminants at safe levels.

What is the source of my water?

Your water, which is ground water, comes from the Memphis Sand Aquifer. Our goal is to protect our water from contaminants and we are working with the State to determine the vulnerability of our water source to **potential** contamination. The Tennessee Department of Environment and Conservation (TDEC) has prepared a Source Water Assessment Program (SWAP) Report for the untreated water sources serving water to this water system. The SWAP Report assesses the susceptibility of untreated water sources to **potential** contamination. To ensure safe drinking water, all public water systems treat and routinely test their water. Water sources have been rated as reasonably susceptible, moderately susceptible or slightly susceptible based on geologic factors and human activities in the vicinity of the water source. The Toone Water System sources rated as moderately susceptible to potential contamination.

An explanation of Tennessee's Source Water Assessment Program, the Source Water Assessment summaries, susceptibility scorings and the overall TDEC report to EPA can be viewed online at <https://www.tn.gov/environment/article/wr-wq-source-water-assessment> or you may contact the Water System to obtain copies of specific assessments.

A wellhead protection plan is available for your review by contacting Mayor Joe Jones at the Toone Water System.

Why are there contaminants in my water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Este informe contiene información muy importante. Tradúscalo o hable con alguien que lo entienda bien.

For more information about your drinking water, please call Mayor Joe Jones at 658-9770.

How can I get involved?

Our Water Board meets on the second Tuesday of each month at 7:20 pm at the City Hall. Please feel free to participate in these meetings.

Is our water system meeting other rules that govern our operations?

The State and EPA require us to test and report on our water on a regular basis to ensure its safety. We have met all of these requirements. Results of unregulated contaminant analysis are available upon request. We want you to know that we pay attention to all the rules.

Other Information

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.

MCLs are set as close to the MCLGs as feasible using the best available treatment technology. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect.
- **MRDL**: Maximum Residual Disinfectant Level or MRDL: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for the control of microbial contaminants.
- **MRDLG**: Maximum residual disinfectant level goal. The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
- **AL** - Action Level, or the concentration of a contaminant which, when exceeded, triggers treatment or other requirements which a water system must follow.
- **Below Detection Level (BDL)** - laboratory analysis indicates that the contaminant is not present at a level that can be detected.
- **Non Detection (ND)** - laboratory analysis indicates that the contaminant is not present at a level that can be detected.
- **Parts per million (ppm) or Milligrams per liter (mg/l)** – explained as a relation to time and money as one part per million corresponds to one minute in two years or a single penny in \$10,000.
- **Parts per billion (ppb) or Micrograms per liter** - explained as a relation to time and money as one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.
- **TT** - Treatment Technique, or a required process intended to reduce the level of a contaminant in drinking water.
- **AVG** – Average
- **RTCR** – Revised Total Coliform Rule. This rule went into effect on April 1, 2016 and replaces the MCL for total coliform with a Treatment Technique Trigger for a system assessment.

Contaminant	Violation Yes/No	Level Found	Range of Detections	Date of Sample	Unit Measurement	MCLG	MCL	Likely Source of Contamination
Total Coliform Bacteria	No	0		2016		0	<2 positive samples	Naturally present in the environment
Total Coliform Bacteria (RTCR)	No	0		2016		0	TT Trigger	Naturally present in the environment
Copper ¹	No	90 th % = 0.0528		2015	ppm	1.3	AL=1.3	Corrosion of household plumbing systems; erosion of natural deposits; leaching from wood preservatives
Lead ¹	No	90 th % = 0.5		2015	ppb	0	AL=15	Corrosion of household plumbing systems, erosion of natural deposits
THM [Total trihalomethanes]	No	3.88		2016	ppb	n/a	80	By-product of drinking water chlorination
Haloacetic Acids (HAA5)	No	<2		2016	ppb	N/A	60	By-product of drinking water disinfection.
Sodium	No	11.8		2014	ppm	N/A	N/A	Erosion of natural deposits; used in water treatment
Chlorine	No	AVG 1.35	1.3-1.4	2016	ppm	MRDLG 4	MRDL 4	Water additive used to control microbes.

Iron: Iron occurs naturally in our raw water and occasionally accumulates in the distribution system. Iron shows up as "red" or "rusty" water at your tap. Although you do not want to drink water that is not clear, iron is not considered to be a hazard to your health. The aesthetic limit for iron is 0.3 ppm.

¹During the most recent round of Lead and Copper testing, 0 out of 10 households sampled contained concentrations exceeding the action level.

GJ WATER NOTICE

Grand Junction Water System Water Quality Report for 2016

Is my drinking water safe?

Yes, our water meets all of EPA's health standards. We have conducted numerous tests for over 80 contaminants that may be in drinking water. As you'll see in the chart on the back, we only detected six of these contaminants. We found all of these contaminants at safe levels.

What is the source of my water?

Your water, which is ground water, comes from a sand. Our goal is to protect our water from contaminants and we are working with the State to determine the vulnerability of our water source to **potential** contamination. The Tennessee Department of Environment and Conservation (TDEC) has prepared a Source Water Assessment Program (SWAP) Report for the untreated water sources serving water to this water system. The SWAP Report assesses the susceptibility of untreated water sources to **potential** contamination. To ensure safe drinking water, all public water systems treat and routinely test their water. Water sources have been rated as reasonably susceptible, moderately susceptible or slightly susceptible based on geologic factors and human activities in the vicinity of the water source. The Grand Junction Water System sources rated as reasonably susceptible to potential contamination.

An explanation of Tennessee's Source Water Assessment Program, the Source Water Assessment summaries, susceptibility scorings and the overall TDEC report to EPA can be viewed online at <https://www.tn.gov/environment/article/wr-wg-source-water-assessment> or you may contact the Water System to obtain copies of specific assessments.

A wellhead protection plan is available for your review by contacting Bobby Hensley at the Grand Junction Water System between 7:30 AM to 4:00 PM weekdays.

Why are there contaminants in my water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Este informe contiene información muy importante. Tradúscalo o hable con alguien que lo entienda bien.

For more information about your drinking water, please call Bobby Hensley at 731-764-2871.

How can I get involved?

Our Water Board meets on the first Monday of each month at 7:00 PM at City Hall, which is located at 150 Tippah Street. Please feel free to participate in these meetings.

Is our water system meeting other rules that govern our operations?

The State and EPA require us to test and report on our water on a regular basis to ensure its safety. We have met all of these requirements. Results of unregulated contaminant analysis are available upon request. We want you to know that we pay attention to all the rules.

Other Information

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Contaminants that may be present in source water:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff, and septic systems.
- Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA and the Tennessee Department of Environment and Conservation prescribe regulations which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

Do I Need To Take Special Precautions?

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have under-gone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about not only their drinking water, but food preparation, personal hygiene, and precautions in handling infants and pets from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Lead in Drinking Water

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Grand Junction Water System is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/lead/protect-your-family%23water%23water>

Water System Security

Following the events of September 2001, we realize that our customers are concerned about the security of their drinking water. We urge the public to report any suspicious activities at any utility facilities, including treatment plants, tanks, fire hydrants, etc. to 896-9022.

Think before you flush!

Flushing unused or expired medicines can be harmful to your drinking water. Properly disposing of unused or expired medication helps protect you and the environment. Keep medications out of Tennessee's waterways by disposing in one of our permanent pharmaceutical take back bins. There are nearly 100 take back bins located across the state, to find a convenient location please visit: <https://www.tn.gov/environment/article/sp-unwanted-pharmaceuticals>

Water Quality Data

What does this chart mean?

- **MCLG** - Maximum Contaminant Level Goal, or the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
- **MCL** - Maximum Contaminant Level, or the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect.
- **MRDL**: Maximum Residual Disinfectant Level or MRDL: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for the control of microbial contaminants.
- **MRDLG**: Maximum residual disinfectant level goal. The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
- **AL** - Action Level, or the concentration of a contaminant which, when exceeded, triggers treatment or other requirements which a water system must follow.
- **Below Detection Level (BDL)** - laboratory analysis indicates that the contaminant is not present at a level that can be detected.
- **Non-Detects (ND)** - laboratory analysis indicates that the contaminant is not present.
- **Parts per million (ppm) or Milligrams per liter (mg/l)** - explained as a relation to time and money as one part per million corresponds to one minute in two years or a single penny in \$10,000.
- **Parts per billion (ppb) or Micrograms per liter** - explained as a relation to time and money as one part per billion corresponds to one minute in 2,000 years, or a single penny in \$10,000,000.
- **Million Fibers per Liter (MFL)** - million fibers per liter is a measure of the presence of asbestos fibers that are longer than 10 micrometers.
- **RTCR** - Revised Total Coliform Rule. This rule went into effect on April 1, 2016 and replaces the MCL for total coliform with a Treatment Technique Trigger for a system assessment.
- **TT** - Treatment Technique, or a required process intended to reduce the level of a contaminant in drinking water.

Contaminant	Violation Yes/No	Level Found	Range of Detections	Date of Sample	Unit Measurement	MCLG	MCL	Likely Source of Contamination
Total Coliform Bacteria	No	0		2016		0	<2 positive samples	Naturally present in the environment
Total Coliform Bacteria (RTCR)	No	0		2016		0	TT Trigger	Naturally present in the environment
Combined radium	No	1.58		2014	PCi/l	0	5	Erosion of natural deposits
Copper ¹	No	90 th % = 0.00415		2015	ppm	1.3	AL=1.3	Corrosion of household plumbing systems; erosion of natural deposits; leaching from wood preservatives
Lead ¹	No	90 th % = 3.09		2015	ppb	0	AL=15	Corrosion of household plumbing systems, erosion of natural deposits
Sodium	No	9.09		2014	ppm	N/A	N/A	Erosion of natural deposits; used in water treatment
TTHM [Total trihalomethanes]	No	<0.5		2016	ppb	n/a	80	By-product of drinking water chlorination
Haloacetic Acids (HAA5)	No	<2.0		2016	ppb	N/A	60	By-product of drinking water disinfection.
Chlorine	No	1.16 AVG	0.9-1.4	2016	ppm	MRDLG 4	MRDL 4	Water additive used to control microbes.

Iron: Iron occurs naturally in our raw water and occasionally accumulates in the distribution system. Iron shows up as "red" or "rusty" water at your tap. Although you do not want to drink water that is not clear, iron is not considered to be a hazard to your health. We test for iron daily and it is usually around 0 ppm. The aesthetic limit for iron is 0.3 ppm.

¹During the most recent round of Lead and Copper testing, 0 out of 10 households sampled contained concentrations exceeding the action level.

SPRING CREEK WATER NOTICE

Spring Creek Utility District Water Quality Report for 2016

Is my drinking water safe?

Yes, our water meets all of EPA's health standards. We have conducted numerous tests for over 80 contaminants that may be in drinking water. As you'll see in the chart on the back, we only detected seven of these contaminants. We found all of these contaminants at safe levels.

What is the source of my water?

Your water, which is ground water, comes from Bolivar, whose water comes from a sand aquifer. Our goal is to protect our water from contaminants and we are working with the State to determine the vulnerability of our water source to **potential** contamination. The Tennessee Department of Environment and Conservation (TDEC) has prepared a Source Water Assessment Program (SWAP) Report for the untreated water sources serving water to this water system. The SWAP Report assesses the susceptibility of untreated water sources to **potential** contamination. To ensure safe drinking water, all public water systems treat and routinely test their water. Water sources have been rated as reasonably susceptible, moderately susceptible or slightly susceptible based on geologic factors and human activities in the vicinity of the water source. The Spring Creek Utility District sources rated as reasonably susceptible to potential contamination.

An explanation of Tennessee's Source Water Assessment Program, the Source Water Assessment summaries, susceptibility scorings and the overall TDEC report to EPA can be viewed online at <https://www.tn.gov/environment/article/wr-wq-source-water-assessment> or you may contact the Water System to obtain copies of specific assessments.

A wellhead protection plan is available for your review by contacting Tim Warren at the Spring Creek Utility District.

Why are there contaminants in my water?

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline (800-426-4791).

Este informe contiene información muy importante. Tradúscalo o hable con alguien que lo entienda bien.

For more information about your drinking water, please call Tim Warren at 658-6559.

How can I get involved?

Our Water Board meets on the fourth Monday of each month at 4:00 pm at the utility office, which is located at 95 Hope Street. Please feel free to participate in these meetings.

Commissioner Selection

The Commissioners of Spring Creek Utility District serve four year terms. Vacancies on the Board of Commissioners are filled by the vote of the remaining Commissioners in office. Decisions by the Board of Commissioners on customer complaints brought before the Board of Commissioners under the District's customer complaint policy may be reviewed by the Utility Management Review Board of the Tennessee Department of Environment and Conservation pursuant to Section 7-82-702(7) of Tennessee Code Annotated.

Is our water system meeting other rules that govern our operations?

The State and EPA require us to test and report on our water on a regular basis to ensure its safety. We have met all of these requirements. Results of unregulated contaminant analysis are available upon request. We want you to know that we pay attention to all the rules.

Other Information

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the

surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial, or domestic wastewater discharges, oil and gas production, mining, or farming.
