Don't Ask Them, It's Just Their Business

Residents of a local group home were charged for their alleged involvement in vandalism and theft in Bolivar.

Kevin Vaughn and Hunter Souder, both listed as having a Support Solutions address of 518 Pecan Drive in Bolivar in the Bolivar Police Report, were charged with 17 counts each, according to the Hardeman County General Sessions Clerk.

According to their website, Support Solutions "provides a wide range of services designed to help individuals with intellectual or developmental disabilities live a full life in their own community." They have homes in Tennessee and North Carolina and are based in Memphis.

Support Solutions in Bolivar reported the pair missing to the Bolivar Police Department on July 26. They were found and returned to the Pecan Drive address on July 30, at which time, according to the police narrative, both Vaughn and Souder admitted their involvement as in breaking into the Lions Club ballfield (see photo) on two occasions and also throwing a wrench through the window of a small construction building located at 10160 W. Market Street.

The next day, Support Solutions reported the two had again run from the group home and both were given a NIC number.

On August 2, the pair were caught attempting to break into the National Guard Armory after burglarizing the Optimist Field in Bolivar and the Lions Club field. At the time, the two were in possession of an axe, and a pickaxe and wearing football pad gear and welding helmets. They were returned to Support Solutions and removed from the NCIC.

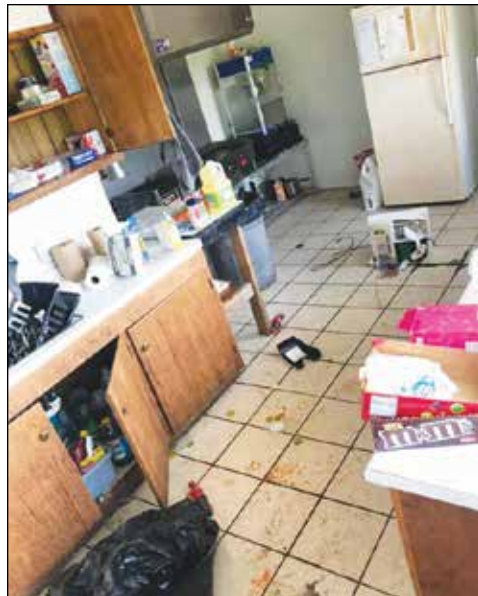

The two appear to be on video obtained from Brooks Auto Service in Bolivar, breaking and/or looking into storage units and abandoned cars on August 2, but taking nothing, according to the report.

On August 3, after a call from the Bolivar Support Solutions home in Bolivar, the pair confessed their involvement and expressed remorse for their actions. They also led police to the site of their stolen items, including baseball catcher's equipment, after which they were taken into custody.

Damages to and thefts from the Lions Club concession stand were estimated at \$983, while damages to the Optimist Field in Bolivar were estimated at \$1,370.

Calls to the Bolivar Support Solutions office were referred to the Memphis Support Solutions office. (see *We Said, They Said...* to the right)

On their website, Support Solutions had

this statement in regards to an incident in Chattanooga in January.

The Support Solutions family is shocked and deeply saddened by the events that took place over the weekend. While we legally cannot disclose details of the situation during the investigation, we can assure you that we are working closely with authorities to determine the answers to all of our questions as quickly as possible. In contacting Support Solutions, we were informed they would only respond to media in writing.

So we wrote:

This is a media request for comment. Clients of yours have been arrested for theft and damage to baseball field areas in Bolivar. Please answer these questions.

Is Support Solutions aware of these charges?

Are these clients left unsupervised to roam around Bolivar/Hardeman County? and Please comment on what Support Solutions plans to do to make the victims whole.

They answered:

Support Solutions was recently notified about the situation that occurred at the baseball fields. While we legally cannot disclose details surrounding this case, we can assure you that we are working closely with local authorities to have all of our questions answered. We respectfully ask that you direct all inquiries to the Bolivar Police Department.

Y'all Gonna to Have to Slow Down

The City of Bolivar will be reducing the speed limit on residential streets to 25 MPH effective immediately according to Mayor Julian McTizic. "I have consistently been receiving telephone calls and complaints regarding speeding in our residential neighborhoods. In addition, many have requested the installation of speed bumps throughout these residential neighborhoods," said Mayor McTizic.

According to McTizic, the installation of speed bumps in neighborhoods, while a deterrent, presents its own safety issue especially when emergency services personnel are responding to an emergency. The speed bumps slow critical response times for emergency agencies and can damage their vehicles. There was also a concern expressed by the city's insurer regarding the installation of speed bumps.

The reduction of the speed limit to 25 MPH will be coupled with enhanced patrols of our residential neighborhoods by the Bolivar Police Department to ensure that the new speed limits are enforced. "Speeds in excess of 25 MPH are dangerous for both the citizens who live in our residential neighborhoods as well as our children who are at play. Our children are our most treasured asset and should be able to play outside in our neighborhoods without fear of motorists speeding down their streets," said McTizic.

How to Get Our Kids to Be More by Amy Elizer

With childhood obesity on the rise, making sure kids eat right and get plenty of physical activity is vital. Parents and caregivers can play a big role in children's nutrition and health, teaching kids about healthy foods, being a good model and making sure physical activity is incorporated into each day.

August, which is Kids Eat Right Month™, is a great time to re-evaluate your family's eating and physical activity habits and take steps to make positive, healthful changes. The Academy of Nutrition and Dietetics is encouraging families to take the following steps:

Shop Smart. To encourage a healthy lifestyle, get your children involved in selecting the food that will appear at the breakfast, lunch or dinner table.

Cook Healthy. Involve your child in the preparation of meals. They will learn about food and may even be enticed to try new foods they helped prepare.

Eat Right. Sit down together as a family to enjoy a wonderful meal and the opportunity to share the day's experiences with one another. Family meals encourage healthy family relationships and good eating habits.

Healthful Habits. You can help kids form great, healthy habits by setting a good example. Fill half your plate with fruits and vegetables, choose lower-sodium options, and make at least half the grains your family eats whole grains. For beverages, choose water over drinks with added sugars, and opt for fat-free or low-fat milk.

Get Moving. Aside from being a great way to spend time together, regular physical activity is vital to strengthen muscle and bones, promote a healthy body weight, support learning, develop social skills and build self-esteem. Pre-school aged kids are encouraged to be active throughout the day, and older children and adolescents need at least 60 minutes of moderate-to-vigorous activity daily, according to the U.S. Department of Health and Human Services' Physical Activity Guidelines for Americans, 2nd Edition.

Getting kids to eat right can sometimes be a challenge, particularly if they are picky eaters. But experts say that a conversation can help.

"Talk to your children. Learn the foods they like. Teach them about the foods they need for their growing bodies. Together, find ways to make sure they have the knowledge and ability to eat healthful and tasty foods at every meal," says Kristi King, registered dietitian nutritionist and Academy spokesperson. Dr. Kristen Johnson, Assistant Professor and University of Tennessee Extension Specialist, adds that "Small, positive changes to your eating habits add up to big results for the health of children and families. Parents and caregivers are important role models for children. Involving children in the process of choosing and preparing meals and snacks is a fantastic way to teach children healthy habits and to encourage children to try new foods."

It may help to consult a registered dietitian nutritionist in your area to ensure your family is getting the nutrients it needs, with a meal plan tailored to your lifestyle and busy schedule. Learn more at www.KidsEat-Right.org.

FAITH

Calmness in the Storm by Jeff Capshaw

The story of Jesus' calming the storm is recorded in three of the Gospels: Matthew 8:23-27, Mark 4:35-41, and Luke 8:22-25. Whether Matthew borrowed the material from Mark or whether Luke from Matthew and/or Mark isn't the point. Instead, these stories comprise the Church's canonical Scripture and should be read, understood, and applied accordingly.

Until fairly recently, the Church traditionally understood Matthew's Gospel to be the earliest narrative. So, here is his account. "And when he got into the boat, his disciples followed him. And behold, there arose a great storm on the sea, so that the boat was being swamped by the waves; but he was asleep. And they went and woke him, saying, 'Save us, Lord; we are perishing.' And he said to them, 'Why are you afraid, O you of little faith?' Then he rose and rebuked the winds and the sea, and there was a great calm. And the men marveled, saying, 'What sort of man is this, that even winds and sea obey him?'" (Matthew 8:23-27, ESV).

This story is the source of one of Rembrandt Van Rijn's most beloved paintings. It suggests that some of the disciples are in a state of panic. Some of them are working to hold

the boat together. One is leaning over the side of the boat, about to vomit. One of them is staring out directly at us, holding onto his cap with one hand and onto a rope with the other. Accordingly, Matthew calls it a "mega" storm.

Even so, Matthew says, "but he (Jesus) was asleep." There could hardly be a starker contrast: panic and sleep. This isn't to suggest that Jesus was apathetic to the situation. Instead, the lesson for his disciples on the boat and us is this: Jesus does "have the wheel" no matter what. Nature's ways do not trouble Him, and they should not overly trouble believers. So, why do they?

The passage is clear. It is just as Jesus said to his panicking-and-about-to-perish-disciples. "Why are you afraid, O you of little faith?" According to R. T. France, "Matthew often warns of the danger of little faith (cf. 6:30; 14:31; 16:8; 17:20)." Although the storm in the story and the storms in this life can be scary and threatening, insufficient faith is

often more detrimental.

This lesson isn't about the amount of faith. It is about the object of faith. Recall Matthew 17:20, "he said to them, 'Because of your little faith. For truly, I say to you, if you have faith like a grain of mustard seed, you will say to this mountain, 'Move from here to there,' and it will move, and nothing will be impossible for you.'"

The story ends with this lesson. Jesus has ultimate authority even over nature. He calms the storms in believers' lives. Therefore, during life's storms, don't panic; call on the Lord; put whatever faith you can muster in him; be calmed and amazed!

Anxiety Overload by David Coy

Sometimes something happens on earth that does not make sense. Bad things happen to good people, and good things happen to bad people. Sometimes life brings sorrow, sometimes life brings it in overabundance. Does this make sense? No, it does not. On the surface many things that happen appear unjust and unfair, yet they happen to all of us. As creatures of habit we need structure and routine. When life happens it can be very disruptive, overwhelming, and painful. It can be confusing, frustrating and a bit scary. With all the different experiences that are possible from anxiety, anger, shock, brain fog, appetite disruption, sleep disruption, crying, lethargy, detaching ourselves from others, as just some of the symptoms that we as individuals will deal with, it is understandable if a person feels anxiety overload.

If we are struggling with identity since a loss of a soul mate or a child, or losing our employment career, or with moving forward, realize we are not alone. Yet we must persevere and push forward as the captain of our own ship. With a strong support system this we can do. There is an excerpt from a poem by Mayme White Miller that says; "Whatever happens to us, Here are the words to say, Had it not been for so-and-so Things would not have gone that way... You are the captain of your ship." We do not have control over many things that happen in our life, but we do have control over how we respond. In this way we are the captain of our ship. Determine to be resolute to move forward and willing to rebuild your life. Be also certain there are others around you who are ready and willing to walk with you in your journey for as long as you need. This is Sunrise Aftercare, sunrise@sfdcures.com

We Said, They Said continued from A1

Chief Mike Jones nor Bolivar Mayor Julian McTizic had spoken to Support Solutions Memphis office. So we answered:

One out of three wasn't bad. And the local authorities haven't heard from you at all, such as the Mayor or the Chief of Police.... Is there someone else you are talking to? And the Bolivar PD can't answer the ones you didn't answer. Let's try again...Are these clients left unsupervised to roam around Bolivar/Hardeman County? and Please comment on what Support Solutions plans to do to make the victims whole.

As of Wednesday morning, we were still waiting for an answer.

Darrell Teubner, Editor

In a Chattanooga Times Free Press article on January 14, 2020, a story detailed the slaying of a Support Solutions group home caretaker who died after being struck multiple times in the head with a brick. A resident at the group home was charged, according to the article. The article also stated that police had been called to the Chattanooga Support Solutions home 43 times since 2017, including four assault calls and twice for disorder with a weapon involved.

On January 21, a story in the Chattanooga.com reported Support Solutions had vacated the property where the incident occurred.

HARDEMAN COUNTY SCHOOLS

"Preparing for the Future, One Child at a Time"

Bobby Doyle ~ Interim Director of Schools

July 30, 2020

It has truly been a challenging time for everyone over the last four months. The health and safety of our students, staff, and families drive every decision that we make. With that being said, we have been monitoring the daily trajectory of COVID-19 cases in Hardeman County. Due to a rise in community transmission, we feel the need to adjust our in-classroom schedule for the beginning of the school year.

Aug. 3 – 7 Teacher in-service

Aug. 10 – 14 Staggered schedule for students that was already in place. There is NO change to this week's schedule. The schedule for each school is on the school's website.

Aug. 17 – Sept. 4 NEW hybrid schedule

Students will be assigned to an "A" schedule or a "B" schedule. Each school will notify families of which schedule they have been assigned to.

"A" students will be in class on Monday and Tuesday. Work will be sent home for remote learning for Wednesday – Friday.

"B" students will be in class on Thursday and Friday. Work will be sent home for remote learning for Monday – Wednesday.

This schedule allows for only half of our student body to be in class at a time, which provides for more social distancing during this particular time of high transmission rates. Wednesday will be a day for teacher planning and preparation for remote learning days. Teachers will be on campus on Wednesdays and available for academic assistance with remote learning via email.

Monday	Tuesday	Wednesday	Thursday	Friday
A	A	Teachers only	B	B

Sept. 8 Parent-Teacher conference (format TBD)

Sept. 9 All students return to campus on a full weekday schedule

The schedule for virtual learning has not changed. Orientation meetings will be held the week of Aug. 10th and daily classes will begin the week of Aug. 17th.

Please realize that we have taken all points into consideration and no single plan will be the best for all stakeholders. We appreciate your support and understanding. However, we felt this was in the best health interest of our students, staff, and families. While we look forward to normalcy in our school buildings, we will continue to provide continuous learning opportunities for our students. God bless and stay safe.

GO FIGURE! by Linda Thistle

The idea of Go Figure is to arrive at the figures given at the bottom and right-hand columns of the diagram by following the arithmetic signs in the order they are given (that is, from left to right and top to bottom). Use only the numbers below the diagram to complete its blank squares and use each of the nine numbers only once.

COMMUNITY NEWS

Silerton

Melea Beshires
tatteredthread@gmail.com

Silerton is a friendly place. Kevin and I are always catching up with neighbor friends and meeting new faces on our walks with Otto and the dogs. Larry and Dora Stringer have lived in Silerton since 2011. Dora Stringer said they “love Silerton and could not ask for a better place to live”. Their granddaughter Genea Pruett spends a lot of time helping out on their farm. Pruett, age 8, says she’s been “messing with chickens since she was 3 or 4 years old.” At night they feed and water the chickens and also let them out to graze. The chickens are raised for eggs and the Stringers give away a lot of the eggs that they hatch. Pruett also helps her grandparents with caring for the hunting dogs. She keeps them fed and watered and also helps clean out their pens. I asked Pruett what sort of animals the dogs hunt and she said mostly raccoons. It is always a pleasure to see Genea Pruett and the Stringer family. I look forward to more talks with them and to learn more about farm life.

Mary Lynn Lambert shares some other Silerton news for the week. “Kendall Wilson, daughter of Ricky Wilson, returned to Kansas after her summer in Silerton. She will be missed. Grady and Carolyn Stack are enjoying their summer by camping. They related that the Pickwick campgrounds have reopened another section and campers are enjoying a retreat from their busy lifestyles. Our condolences go to the family of Glenda Naylor Siler. Her memorial service will be at the Silerton Cemetery on August 7.”

This past weekend the Beshires and I visited my grandmother Wilma Smith in Memphis. On our way home there was a double rainbow in the sky. This was Otto’s first rainbow sighting!

Bill and Vonda Siler are good to share their crops with neighbors. They brought Willard and Linda Beshires a watermelon, a treat we all enjoy!

For Silerton residents needing trash disposal, Piney Grove Convenience Center hours are Tuesday from 12:30 p.m. to 6 p.m. and Saturday from 7 a.m.-6 p.m.

As always, if you have news or stories to share please do not hesitate to get in touch!

Hello from Toone, where the hot, humid, pop-up thunderstorm days of summer continue. Those 3-4 days of cooler, less-humid conditions we enjoyed this week were quite the welcomed treat, but now it seems that the temps have returned to normal. Believe it or not, after nearly five “crazy” months of self-quarantine and public social-distancing, Hardeman County schools are re-opening, and students are headed back into the classrooms. Under normal conditions, many students dreaded the end of summer vacation and having to return to school, but after what everyone has experienced over the spring and summer, I believe most kids (and probably teachers, as well) are now actually looking forward to going back and being able to interact once again with their friends. But remember, the threat is still out there, so let’s make sure we do all we can to make this a successful school year for everyone involved.

Members from Toone Baptist Church, along with neighboring Parrans Chapel Baptist Church, will meet on the Toone School parking lot, August 9 at 6 p.m., to hold a prayer service for all teachers, students, school administrators. The group will not be going inside the school as in years past due to the COVID 19 guidelines. Everyone is invited to come join this event. Pastor Anthony Vaughn, of Toone Baptist Church, says the church is very hopeful that they will be able to resume Sunday School classes very soon. More information on this will follow as it becomes available.

Attention recent TES 8th grade graduates: Some of the teachers are working on a project to honor you and your accomplishments. Please email a picture of yourself in your cap and gown to: adoyle@hcsedu.org Please send this picture by Thursday, August 6 at 3 p.m.

Please keep our friend and Toone neighbor, Marie King, in your thoughts and prayers. Her Mother, Mattie Harriman, from Kenneth, MO, passed away last week. Please join me in congratulating our good friend, Joyce Peters, on her recent retirement from Centennial Bank. Joyce began her banking career 21 years ago with Merchants & Planters Bank. It will be very different not seeing her smiling face at our Toone Bank. Congratulations, Joyce, and enjoy every minute of your retirement!

On a sad note, one of our former Toone neighbors, Frank Tobias, passed away on Monday. Frank’s wife, Patsy Phillips Tobias, was raised in Toone. She and Frank returned here from Texas after they retired and lived in Toone for many years before moving back to Texas to be closer to their children and grandchildren. Please keep Patsy and her family in your thoughts and prayers as they go through this difficult time.

Happy Birthday wishes go out to our Toone neighbor, Johnnie Chism, who will celebrate his big day, August 19. I bet Diane bakes an awesome birthday cake for him!

With the new school year beginning, we can all agree that our kids’ safety is the #1 priority, so I would like to share an important safety tip that I recently read about. Do not put your child’s name on the outside of their backpack. A child will be more likely to respond to a stranger if he/she is spoken to by a person using the child’s name. I would like to wish all of our TES students a very safe and happy 2020-2021 school year! Until next time. . . talk to your neighbors!

There will not be wrestling at 108 Henderson St., Friday night. Grady Watson says tell all the fans praying and hoping it won’t be long until can open back up.

School will be starting soon. Let’s keep our children, teachers and all those that work at the schools in prayer also.

Joan Henderson submitted funny for the week: A blonde enters a store that sells curtains. She tells the salesman, “I would like to buy a pair of pink curtains.” The salesman assures her that they have a large selection of pink curtains. He shows her several patterns, but the blonde seems to have a hard time choosing. Finally she selects a lovely pink floral print. The salesman then asks what size curtains she needs. The blonde promptly replies, “Fifteen inches.” “Fifteen inches?” asked the salesman. “That sounds very small - what room are they for?” The blonde tells him that they aren’t for a room, but they are for her computer monitor. The surprised salesman replies, “But miss, computers do not need curtains!” The blonde says, “Hellllloooooo! I’ve got Windoooooows!”

Thanks to those calling and giving me people that are sick and/or news. Call 731-376-8202 or email at bonnieshealthyliving@comcast.net with any news.

The Season that Almost Wasn't

The Bolivar 12U league ended the season with a pick-up game as captains chose the teams.

Team Baker, captained by John Baker took advantage of poor fielding by Team Zawacki in the second inning and won going away by a 10-3 score.

Jayce Clutter got the start for Team Baker and allowed just two runs in the first two innings to earn the pitching win. Devin Woods, who gave up only one earned run of the six he allowed, took the loss.

The 8U and 6U leagues are scheduled to complete their seasons on August 6.

Lending a Helping Paw to the BPD

The Bolivar Police Department announced the addition of a canine officer to their staff on Monday, August 3, 2020. K-9 Officer Buddy is a three year old German Shepherd. K-9 Officer Buddy is now a fully certified canine law enforcement officer and has completed 25 weeks of intensive training with his handler, Sergeant Allen Sides.

Buddy was trained at K-9 Tennessee Working Dogs by Trainer Allen Strickland. K-9 Officer Buddy is trained in tracking, narcotics detection, criminal apprehension, evidence searches, and building searches.

Both Sergeant Sides and Buddy received certification from the National Narcotic Detector Dog Association as a K-9 Team.

"We are excited to welcome K-9 Officer Buddy to the Bolivar Police Department. The addition of a canine unit will be invaluable to the continuing mission of the department," said Chief Michael Jones. Chief Jones added, "We also would like to remind the public that K-9 Officer Buddy should not be petted or approached in an aggressive manner while working." K-9 Officer Buddy and Sergeant Sides will begin regular patrols effective immediately.

OPINION

The Editor's Inbox... Letters to the Editor

Even though I should know better . . .
 That's right, I should know better, but I still experience a sense of disbelief about what's going on. Some days I wake up and it takes a while for it to hit me that so many Americans seem to have lost their minds.
 Oh, I'm not talking about the small number of people who are doing the burning and rioting. I'm not even talking about governors like Michigan's Whitmer, who seem to be handling the COVID crisis in ways that combine Draconian edicts for the general population with looseness regarding the vulnerable nursing home population.

What I'm referring to is the fact that half the country seems to be willing to vote for the Democrats to perpetuate this sort of thing — Democrats who advocate (or fail to oppose) the most radical proposals ever to air in America. These voters are either unaware of what's going on with the party or are okay with it all. They also are willing to vote for someone who is quite literally suffering from dementia, has a history of political corruption, has not answered off-the-cuff questions, may not agree to a debate, and will be a couple of weeks from his 78th birthday come Election Day.

This is almost literally unbelievable.
 I'm also referring to the many governors and mayors of blue states and blue cities who are doing little-to-nothing to stop the destruction of their own cities — a destruction that is almost certain to cause the flight of a significant part of their tax base and to grievously harm their economies in myriad ways. I'm talking about a populace that has become afraid of its shadow in terms of COVID, and willing to put up with almost any restriction on liberty in the name of supposed protection from the illness. A class of people who, apparently, very much dislike being hampered by facts.

I'm also talking about a racist philosophy that calls itself "anti-racism" and that is doing far more for the revival of racism in this country than any small group of noxious neo-Nazis that remains. The anti-racism movement is also causing enmity among an unknown but probably significant number of relatives and friends who disagree on whether the anti-racism movement is a good development or a destructive one.

Even though I am *technically* white, I have managed to live my entire life without once enslaving anyone. If I can do it, so can you.

And don't get me started on Bill Gates! A twitchy guy in a crew neck sweater who couldn't (and still cannot) keep viruses out of Windows computer systems, but is a "leader" in keeping viruses out of the human body. Interesting. Really.

I could go on-and-on like Tennyson's "Brook", but I'll stop there, you get the idea.
 How did we get to this point? That's a rhetorical question. I know the answer: Gramscian March (especially in the field of education), the proliferation of social media and Cancel Culture, the MSM becoming a pure propaganda machine — we've discussed it all years before 2020. But the speed with which it has happened puts in mind the famous Hemingway quote about bankruptcy in "The Sun Also Rises":

"How did you go bankrupt?" Bill asked.
 "Two ways," Mike said. "Gradually and then suddenly."

Indeed.
 I realize my above description sounds like the plot to a bad political potboiler . . . but wait, there's more: "This know also, that in the last days perilous times shall come."

Res Ipsa Loquitur, amen. Mahalo.

WOW!!!!

At first I didn't see this, thinking it was for the Juvenile (Young Sportsman Hunt) 2021 Waterfowl hunt. When I actually read it, my jaw dropped.

Veterans and Active Military get to hunt on the dates noted. I won't go into great detail "yet" I would like to say::::: Thank You TWRA. Sure would be a Grand thing "IF" Greys Creek Wetland Area was suitable for such a hunt. I can understand certain obstacles such as Beaver Condo's, lack of man power, the list is probably longer. I can only Scream so long before my voice gets weak::::: (Never!!!!!!)
As always SAFETY FIRST::::: HOOT
