## Back to Square One

Six hours in a sweltering courtroom on June 30 brought Hardeman County Sheriff John Doolen's case for more money for his department right back to where it was almost a year ago, when he filed the lawsuit for more financial support for his department.

Things went back to the beginning after Hardeman County Mayor Jimmy Sain's attorney, Amber Griffin Shaw, was successful in contingently setting aside the consent order signed by the Hardeman County Commission last October (see inset right). Shaw maintained while the sides agreed on the terms, the case was handled incorrectly, thereby tainting the settlement, even if the two parties agreed on the key points.

Doolen's attorney, Roy Herron, argued the settlement should stay.

"This mayor is asking you to override the Hardeman County Commission and set aside the good faith agreement of them and the sheriff," said Herron. "They are asking you to do the dirty deed. But we are asking you to use restraint and not overrule the commission."

But while Herron maintained the settlement should be upheld as a final ruling, he also said the case wasn't at that point yet.

"We hope to get to the hearing. We will tell you exactly what we need. We're just not there yet," he said.

### Let's Review...Shall We?

In July of 2019, following the passing of the 2019-2020 budget, Hardeman County Sheriff John Doolen sued for more support.

The issue was seemingly settled in October 2019 after Cary and Herron came to an agreement and Cary presented it to the county commission in a special called meeting as the sheriff's department, who originally sought and sued for approximately \$1.4 million dollars, settled for \$102,000.

At the October 8 meeting, the vote went 13-1 in favor of ending the lawsuit with the settlement.

While both sides claimed lack of adherence to the settlement terms, Attorney Amber Griffin Shaw filed a *Motion to Set Aside the Consent Order* on behalf of Sain on February 10, citing numerous problems with the consent order.

Shaw argued it was a matter of procedure. "The statute says the Hardeman County Commission is not a part of this action," she said. "It's not about whether the \$102,000 is paid, it's about doing it correctly. All we need is to hear from the sheriff about what he needs."

After an impassioned appeal from Herron to leave the order as is, including the statement that, "If they don't pay it will be a part of the next lawsuit," Judge Todd Childress of the 29th Judicial District ruled to set aside the consent order on the legal end, but kept alive the order on other aspects of the case (see *What Happened in October and February, A12*), as Herron contended conflicting testimony between Sain and then-Hardeman County Attorney Chip Cary should tip the case in Doolen's favor.

Childress said several times during the hearing that the case was missing a necessary element, a hearing to finish the matter. Childress stated that while the case was filed and responded to in a satisfactory enough manner, no hearing on the matter, as required by the statute, was held.

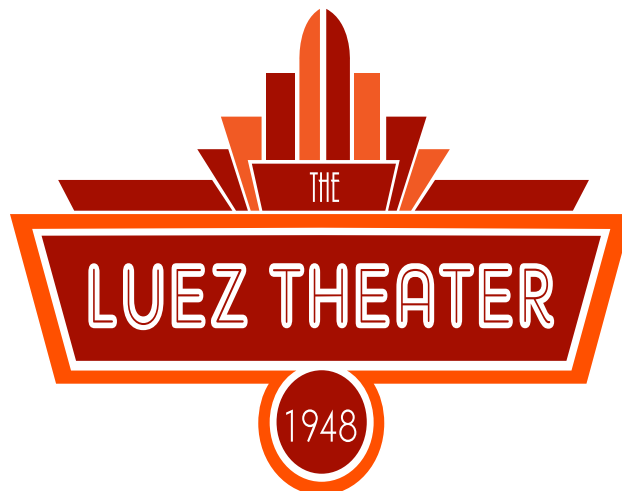

"It's legally suspect," he concluded, saying any order entered must be after a hearing on the matter, even if the sides agree on the terms. "No hearing was held. No facts have been presented," he added.

According to the statute, after the suit is filed, the mayor has five days to respond, either accepting or denying all or part of the request. In any case, a hearing would then be set in a timely fashion in order to settle the case promptly.

In 2014, Hardeman County Circuit Court Clerk Linda

### Luez Closes Until September

Citing lack of available movies and Governor Lee's order prohibiting gatherings of more than fifty people, the Luez Theatre in Bolivar announced they would be closed until September.

At their June 29 meeting, the Bolivar Downtown Development Corporation, which rehabilitated and run the operation, voted to donate the candy from the concession stand to Bolivar Baseball.

### City Council Passes Budget

There were a few empty seats, but those in attendance at the Bolivar City Council meeting voted unanimously to approve the 2020-2021 budget.

Missing the meeting were Larry Crawford, who cited illness, Larry McKinnie, who is still recovering from an accident in the line of duty last month, and Page Walley.

### Co. Schools to Release Plan

The Hardeman County Schools will release a plan for the 2020-2021 school year on July 3, according to Hardeman County Schools Superintendent Bobby Doyle.

"We are still working on details," said Doyle, adding that there will be some flexibility and choice for students and parents in the coming school year.

Doyle said the plan will be posted to their website. The plan will also be published in the *Bolivar Bulletin Times* July 9 issue.

### State Says August...Maybe

Tennessee Governor Bill Lee signed Executive Order No. 50 on June 29, to extend the State of Emergency related to the ongoing COVID-19 pandemic to August 29, 2020. The order allows the continued suspension of various laws and regulations and other measures in these orders to facilitate the treatment and containment of COVID-19 through regulatory flexibility, promoting social distancing and avoidance of large gatherings, and protecting vulnerable populations.

Governor Lee also signed Executive Order Nos. 51 and 52, which extend provisions that allow for electronic government meetings subject to transparency safeguards and remote notarization and witnessing of documents, respectively, to August 29, 2020.

Executive Order No. 50 extends previous provisions that, among other things, provides:

- Urge Tennesseans to continue limiting activity and staying home where possible, as well as following health guidelines and maintaining social distancing;
- Urge persons to wear a cloth face covering in places where in close proximity to others;
- Provide that persons with COVID-19 or COVID-19 symptoms are required to stay at home, and that employers may not require or allow employees with COVID-19

### Rockland Road Comes Back to Bolivar for Music on the Square

It will be a family affair on July 3 when Rockland Road will headline Music on the Square.

Fueled by a mutual passion for many genres and longing for a fun, family-friendly musical experience for their kids, Paul and Jamie Martin began singing together in 2010 with their four children: March, Kell, Texas, and Tallant. Quickly realizing that the kids all showed an uncanny knack for hearing harmonies, as well as for playing instruments, they began performing shows together. Originally named "The Martin Family Circus," they changed to Rockland Road in 2018.

Opening up the night are the Lakelin Lemmings. The evening is scheduled to begin at 7:00 p.m.

## Civitan Awards Scholarships

The Bolivar Civitan Club award scholarships to Bolivar Central Seniors each year as part of their service to the community.

Civitan International is an organization of volunteer service clubs around the world, dedicated to helping people in their own communities. Civitans help wherever

the need arises – from collecting food for a homeless shelter, to volunteering at their local retirement home, to building a playground for children with disabilities. Civitans have been helping people since the organization's founding in 1917, by a group of businessmen determined to make a differ-

ence in their community.

In the 1950s, Civitan adopted a special emphasis on helping people with developmental disabilities. Civitan was one of the major supporters of Special Olympics International, and thousands of Civitans still support these local events. Civitan clubs also fund and organize special camps and events for people with developmental disabilities.

Above: Bolivar Civitan Club, Inc. awarded the Shelby Scholarship to Jamiya Burkley in 2019. She is the daughter of Dr. Shemon Reaves and Tasha Reaves. Burkley is enrolled at Middle Tennessee State University and is majoring in nursing.

Bolivar Civitan Club, Inc. presented Madalyn Piefer the Shelby Scholarship. She is the daughter of Bryan and Erin Piefer. Madalyn plans to attend Union University in the Fall. The scholarship is named for charter member William L. Shelby.

### Red, White & Blue Firecracker Pasta Salad

#### Ingredients

- 1 box (454gr) farfalle/bowtie pasta, cooked al dente
- 1 cup mozzarella cheese, bite sized
- 1 cup cherry tomatoes, diced
- 1/2 cup red pepper, diced
- 1/2 cup red onion, diced
- 1 cup canned white beans (cannellini or kidney), drained & rinsed
- 1/2 bottle Italian salad dressing
- 1/2 cup mini sliced chorizo or pepperoni
- Sriracha, to taste

#### Directions

With your pre-cooked pasta bowties, remove about 1/2 of them, and place into a ziploc bag. Add in about 20 drops of blue food coloring, seal and shake until the color is well distributed.

Add the blue pasta back into the uncolored "white" pasta and begin to add the rest of your ingredients - onion, beans, tomatoes, mozzarella, chorizo/pepperoni, Italian salad dressing & sriracha sauce.

### DR. ERNEST CORNELL RHODES JUNE 21, 1935 - JUNE 17, 2020

Dr. Ernest Cornell Rhodes, lovingly referred to as Cunnell, was born in Whiteville, Tennessee on June 21, 1935 to Norman Rhodes and Mable McNeal Rhodes. He was the third of six children born to this union, three of which preceded him in death: sister, Mary Christine Rhodes; and brothers, William Ray and Willy Jerry Rhodes. His parents also preceded him in death.

Ernest began his formal education in the Hardeman County school system in Whiteville, Tennessee and graduated from Allen White High School. After graduation he attended Tennessee Agricultural and Industrial State College and earned his Bachelor of Science degree in Sociology. After a tour of duty in the Navy, he returned to Nashville and earned his Master of Arts degree from Fisk University. His intellect and thirst for knowledge led him to continue his education, receiving his Doctoral Degree in Sociology from the University of Pittsburgh. Upon graduation he returned to his beloved Tennessee State University where he served for almost 50 years as a professor in the Department of Sociology, with adjunct appointments at Fisk University and American Baptist College, Nashville, Tennessee.

Ernest achieved numerous accomplishments as an educator and leader. He was a member of Alpha Pi Alpha Fraternity, Inc. and received many honors and awards in academia and leadership. He was a long standing, dedicated member of First Baptist Capitol Hill, Nashville, Tennessee, where he faithfully served as Deacon for over 50 years. He was an avid reader of the Bible and an eloquent and skilled orator, who was called upon regularly to bless the congregation in prayer.

Ernest was joined in holy matrimony in 1968 to Charlotte Ann Scott, and they remained faithful and loving partners until her death in 2017. There were no children born to this union.

Left to cherish his memory is his sister, Delois O. (Clyde) Wright of Westerville, Ohio; brother, Jesse C. (Lucille) Rhodes of Bolivar, Tennessee; niece, Celestine Rhodes (James) Jones of Nashville, Tennessee; and a host of other nieces, nephews, great nieces, great nephews, family and friends.

Dixie Funeral Home was in charge of committal and interment.

We wish to acknowledge with sincere gratitude the numerous expressions of concerns, love, and sympathy. We have sustained a great loss and your support has helped us immensely. We shall always be grateful to each of you. ~ The Family.

## Peace or Anxiety? by Jeff Capshaw

Normal life affords people with many stressors. Relationships, the workplace, the number of resources needed for a modicum of middle-class existence, and so on, all give rise to personal anxiety. Coupling contemporary, everyday existence--along with the recent pandemic and sociological turmoil in the country-- creates an environment ripe for the loss of peace and tranquility.

One familiar source defines anxiety as follows: "anxiety is an emotion characterized by an unpleasant state of inner turmoil, often accompanied by nervous behavior such as pacing back and forth, somatic complaints, and rumination. It is the subjectively unpleasant feelings of dread over anticipated events." In light of recent events in 2020, many are asking themselves, "what's next?" It causes one to want 2020 quickly to end or to just do a complete reboot and start all over.

But, going back in time or changing the future isn't practically possible. Who knows what the future holds? And, given the current social unrest, an election year, and a virus still afoot, then things could get worse before they get better. However,

life goes on, and people have to make the best of the hand they are dealt.

The Apostle Paul offers some practical advice for believers, and his words are both timely and on point for the current, anxiety-producing times being experienced. Part of his purpose for writing to them was to encourage the Philippians to stand firm in the face of persecution and rejoice regardless of circumstances. Did you get that? "Rejoice, regardless of circumstances." That's tough, but one way to carry this out is found in chapter 4.

He wrote, "do not be anxious about anything, but in everything by prayer and supplication with thanksgiving let your requests be made known to God. And the peace of God, which surpasses all understanding, will guard your hearts and your minds in Christ Jesus" (4:6-7). Defending against anxiety is not easy. It's hard: very hard. Sometimes it is so bad that people need medication for it. That's probably appropriate in the short term, but it often isn't a permanent solution. The mental and spiritual attitudes have a role to play as well.

Paul says to "stop being anxious about anything." Instead, he urges believers to replace meditating and ruminating on circumstances with prayer. But he amplifies the prayer admonishment with the word "supplication." Put simply, it is a calling out to God for help. And the Lord knows help is needed for times like these. Yet, to ask for help requires at least two things. First, one has to recognize the need for help. Second, one has to be humble enough to ask for help. How about you? Are you willing and humble enough to ask the Lord for help during these trying times?

What's the payoff? The Scripture promises that God's peace will replace emotional and mental anxiety. It probably will not be a "one-off" sort of situation. It will take discipline and ongoing effort. But as one famous person often says, "what have you got to lose"?

## Overly Anxious by David Coy

Is it realistic to not worry about tomorrow? What exactly does that mean? Many people are clearly worried and struggling with serious financial and other types of concern through no fault of their own. So what then does it mean, be not anxious? Shakespeare said, "The native hue of resolution is skilled o'er with pale cast of thought (anxiety)," and this certainly describes a large segment of us today. It is only natural that we are going to worry and be concerned, so it does not mean to 'not worry.' What it does mean is to not become obsessed with worry or anxiety to the point of mental deficiency. The word anxious in the Greek originally meant to 'divide' thus we should not grow in anxiety or anxiousness. How do we accomplish this?

Keeping our focus of our heart and not allow circumstances of lesser import to distract us from priorities. Overly anxiousness is a distraction. It is proper to be concerned and healthy. It is not to be obsessed with worry or anxiousness or anxiety. Sometimes we can allow something or someone to become a distraction and consume our energy and tear us down. Keep focus on first things first (prioritize). Second, We should recognize when we need the assistance from others outside of ourselves. Do not allow pride to be an obstacle to achieving success with the help of someone else. We are not an island to ourselves. A threefold cord is not easily broken. We are stronger when we have common interests and goals alongside others, that is why our constitution for example is so important. It is what makes America what it is as a nation. Concern for one another is what makes us humane and preserves our humanity. Thus it is good for us to be concerned for one another in our distress and show that we care. ## WHAT ARE THE SYMPTOMS?

### CALL YOUR DOCTOR:

If you think you have been exposed to COVID-19 and develop a fever and symptoms, such as cough or difficulty breathing, call your healthcare provider for medical advice.

### WATCH FOR SYMPTOMS

Reported illnesses have ranged from mild symptoms to severe illness and death for confirmed coronavirus disease 2019 (COVID-19) cases.

The following symptoms may appear 2-14 days after exposure.\*

- Fever
- Cough
- Shortness of breath

\*This is based on what has been seen previously as the incubation period of MERS-CoV viruses.

If you develop emergency warning signs for COVID-19 get medical attention immediately.

### EMERGENCY WARNING SIGNS INCLUDE\*:

- Difficulty breathing or shortness of breath
- Persistent pain or pressure in the chest
- New confusion or inability to arouse
- Bluish lips or face

\*This list is not all inclusive. Please consult your medical provider for any other symptoms that are severe or concerning.

## IF YOU ARE AT HIGHER RISK

### WHO IS AT HIGHER RISK?

Early information shows that some people are at higher risk of getting very sick from this illness. This includes:

- Older adults
- People who have serious chronic medical conditions like:
  - Heart disease
  - Diabetes
  - Lung disease

### GET READY FOR COVID-19 NOW

#### Take actions to reduce your risk of getting sick

If you are at higher risk for serious illness from COVID-19 because of your age or because you have a serious long-term health problem, it is extra important for you to take actions to reduce your risk of getting sick with the disease.

- Stock up on supplies.
- Take everyday precautions to keep space between yourself and others.
- When you go out in public, keep away from others who are sick, limit close contact and wash your hands often.
- Avoid crowds as much as possible.
- Avoid cruise travel and non-essential air travel.
- During a COVID-19 outbreak in your community, stay home as much as possible to further reduce your risk of being exposed.

### HAVE SUPPLIES ON HAND

- Contact your healthcare provider to ask about obtaining extra necessary medications to have on hand in case there is an outbreak of COVID-19 in your community and you need to stay home for a prolonged period of time.
- If you cannot get extra medications, consider using mail-order for medications.
- Be sure you have over-the-counter medicines and medical supplies (tissues, etc.) to treat fever and other symptoms. Most people will be able to recover from COVID-19 at home.
- Have enough household items and groceries on hand so that you will be prepared to stay at home for a period of time.

### TAKE EVERYDAY PRECAUTIONS

#### Avoid close contact with people who are sick.

#### Take everyday preventive actions:

- Clean your hands often
- Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing, or sneezing, or having been in a public place.
- If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol.
- To the extent possible, avoid touching high-touch surfaces in public places – elevator buttons, door handles, handrails, handshaking with people, etc. Use a tissue or your sleeve to cover your hand or finger if you must touch something.
- Wash your hands after touching surfaces in public places.
- Avoid touching your face, nose, eyes, etc.
- Clean and disinfect your home to remove germs: practice routine cleaning of frequently touched surfaces (for example: tables, doorknobs, light switches, handles, desks, toilets, faucets, sinks & cell phones)
- Avoid crowds, especially in poorly ventilated spaces. Your risk of exposure to respiratory viruses like COVID-19 may increase in crowded, closed-in settings with little air circulation if there are people in the crowd who are sick.

Avoid all non-essential travel including plane trips, and especially avoid embarking on cruise ships.

## DISINFECTING YOUR HOME IF SOMEONE IS SICK

As part of your everyday prevention actions clean and disinfect frequently touched surfaces and objects. For example: tables, counter tops, light switches, doorknobs, and cabinet handles.

Wear disposable gloves to clean and disinfect.

### CLEAN

- Clean surfaces using soap and water. Practice routine cleaning of frequently touched surfaces.

#### High touch surfaces include:

Tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, sinks, etc.

### DISINFECT

- Use diluted household bleach solutions if appropriate for the surface. Check to ensure the product is not past its expiration date. Unexpired household bleach will be effective against coronaviruses when properly diluted.

Follow manufacturer's instructions for application and proper ventilation. Never mix household bleach with ammonia or any other cleanser.

#### To make a bleach solution, mix:

- 5 tablespoons (1/3rd cup) bleach per gallon of water

#### OR

- 4 teaspoons bleach per quart of water
- Alcohol solutions with at least 70% alcohol.
- Household cleaners and disinfectants: Clean the area or item with soap and water or another detergent if it is dirty. Then, use a household disinfectant.

#### Follow the instructions on the label to ensure safe and effective use of the product.

#### Many products recommend:

- Keeping the surface wet for several minutes to ensure germs are killed.
- Precautions such as wearing gloves and making sure you have good ventilation during use of the product.
- Most EPA-registered household disinfectants should be effective.

### SOFT SURFACES

#### For soft surfaces such as carpeted floor, rugs, and drapes

- Clean the surface using soap and water or with cleaners appropriate for use on these surfaces.
- Launder items (if possible) according to the manufacturer's instructions. Use the warmest appropriate water setting and dry items completely.

#### OR

- Disinfect with an EPA-registered household disinfectant. These disinfectants meet EPA's criteria for use against COVID-19.

### LAUNDRY

#### For clothing, towels, linens and other items

- Wear disposable gloves.
- Wash hands with soap and water as soon as you remove the gloves.
- Do not shake dirty laundry.
- Launder items according to the manufacturer's instructions. Use the warmest appropriate water setting and dry items completely.
- Dirty laundry from an ill person can be washed with other people's items.
- Clean and disinfect clothes hampers according to guidance above for surfaces.

### CLEAN HANDS OFTEN

- Wash your hands often with soap and water for 20 seconds.
- Always wash immediately after removing gloves and after contact with an ill person.
- Hand sanitizer: If soap and water are not readily available and hands are not visibly dirty, use a hand sanitizer that contains at least 60% alcohol. However, if hands are visibly dirty, always wash hands with soap and water.

Additional key times to clean hands include:

- After blowing one's nose, coughing, or sneezing
- After using the restroom
- Before eating or preparing food
- After contact with animals or pets
- Before and after providing routine care for another person who needs assistance (e.g. a child)
- Avoid touching your eyes, nose, and mouth with unwashed hands.

### FOOD

- Stay separated: The ill person should eat (or be fed) in their room if possible.
- Wash dishes and utensils using gloves and hot water: Handle any non-disposable used food service items with gloves and wash with hot water or in a dishwasher.
- Clean hands after handling used food service items.

### TRASH

- Dedicated, lined trash can: If possible, dedicate a lined trash can for the ill person. Use gloves when removing garbage bags, and handling and disposing of trash. Wash hands afterwards.

## HOW TO PROTECT YOURSELF

Older adults and people who have severe underlying chronic medical conditions like heart or lung disease or diabetes seem to be at higher risk for developing more serious complications from COVID-19 illness. Please consult with your health care provider about additional steps you may be able to take to protect yourself.

There is currently no vaccine to prevent coronavirus disease 2019 (COVID-19).

- The best way to prevent illness is to avoid being exposed to this virus.
- The virus is thought to spread mainly from person-to-person.
- Between people who are in close contact with one another (within about 6 feet).
- Through respiratory droplets produced when an infected person coughs or sneezes.

These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs

### TAKE STEPS TO PROTECT YOURSELF

#### Clean your hands often

- Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry.
- Avoid touching your eyes, nose, and mouth with unwashed hands.

#### AVOID CLOSE CONTACT

- Avoid close contact with people who are sick
- Put distance between yourself and other people if COVID-19 is spreading in your community. This is especially important for people who are at higher risk of getting very sick.

#### TAKE STEPS TO PROTECT OTHERS

##### Stay home if you're sick

- Stay home if you are sick, except to get medical care. Learn what to do if you are sick.

##### Cover coughs and sneezes

- Cover your mouth and nose with a tissue when you cough or sneeze or use the inside of your elbow.
- Throw used tissues in the trash.
- Immediately wash your hands with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.

#### WEAR A FACE MASK IF YOU ARE SICK

- If you are sick: You should wear a facemask when you are around other people (e.g., sharing a room or vehicle) and before you enter a healthcare provider's office. If you are not able to wear a facemask (for example, because it causes trouble breathing), then you should do your best to cover your coughs and sneezes, and people who are caring for you should wear a facemask if they enter your room. Learn what to do if you are sick.
- If you are NOT sick: You do not need to wear a facemask unless you are caring for someone who is sick (and they are not able to wear a facemask). Facemasks may be in short supply and they should be saved for caregivers.

#### CLEAN AND DISINFECT

- Clean AND disinfect frequently touched surfaces daily. This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks.
- If surfaces are dirty, clean them: Use detergent or soap and water prior to disinfection.

### INFORMATION FROM THE CDC

The Centers for Disease Control is responding to an outbreak of respiratory disease caused by a novel (new) coronavirus that was first detected in China and which has now been detected in more than 100 locations internationally, including in the United States. The virus has been named "SARS-CoV-2" and the disease it causes has been named "coronavirus disease 2019" (abbreviated "COVID-19").

On January 30, 2020, the International Health Regulations Emergency Committee of the World Health Organization (WHO) declared the outbreak a "a public health emergency of international concern". On January 31, Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the nation's healthcare community in responding to COVID-19. On March 11, the World Health Organization characterized COVID-19 as a pandemic. On March 13, the President of the United States declared the COVID-19 outbreak a national emergency.

### SOURCE AND SPREAD OF THE VIRUS

Coronaviruses are a large family of viruses that are common in people and many different species of animals, including camels, cattle, cats, and bats. Rarely, animal coronaviruses can infect people and then spread between people such as with MERS-CoV, SARS-CoV, and now with this new virus (named SARS-CoV-2).

The SARS-CoV-2 virus is a betacoronavirus, like MERS-CoV and SARS-CoV. All three of these viruses have their origins in bats. The sequences from U.S. patients are similar to the one that China initially posted, suggesting a likely single, recent emergence of this virus from an animal reservoir.

Early on, many of the patients at the epicenter of the outbreak in Wuhan, Hubei Province, China had some link to a large seafood and live animal market, suggesting animal-to-person spread. Later, a growing number of patients reportedly did not have exposure to animal markets, indicating person-to-person spread. Person-to-person spread was subsequently reported outside Hubei and in countries outside China, including in the United States.

### SEVERITY

The complete clinical picture with regard to COVID-19 is not fully known. Reported illnesses have ranged from very mild (including some with no reported symptoms) to severe, including illness resulting in death, to no symptoms at all. While information so far suggests that most COVID-19 illness is mild, serious illness occurs in 16% of cases. Older people and people of all ages with severe chronic medical conditions — like heart disease, lung disease and diabetes, for example — seem to be at higher risk of developing serious illness.

### COVID-19 NOW A PANDEMIC

A pandemic is a global outbreak of disease. Pandemics happen when a new virus emerges to infect people and can spread between people sustainably. Because there is little to no pre-existing immunity against the new virus, it spreads worldwide.

The virus that causes COVID-19 is infecting people and spreading easily from person-to-person. Cases have been detected in most countries worldwide and community spread is being detected in a growing number of countries.

This is the first pandemic known to be caused by the emergence of a new coronavirus. In the past century, there have been four pandemics caused by the emergence of novel influenza viruses. As a result, most research and guidance around pandemics is specific to influenza, but the same premises can be applied to the current COVID-19 pandemic. Pandemics of respiratory disease follow a certain progression. Pandemics begin with an investigation phase, followed by recognition, initiation, and acceleration phases. The peak of illnesses occurs at the end of the acceleration phase, which is followed by a deceleration phase, during which there is a decrease in illnesses. Different countries can be in different phases of the pandemic at any point in time and different parts of the same country can also be in different phases of a pandemic.

There are ongoing investigations to learn more. This is a rapidly evolving situation and information will be updated on the CDC website as it becomes available.

### SITUATION IN U.S.

Different parts of the country are seeing different levels of COVID-19 activity. The United States nationally is currently in the initiation phases, but states where community spread is occurring are in the acceleration phase. The duration and severity of each phase can vary depending on the characteristics of the virus and the public health response.

### RISK ASSESSMENT

Risk depends on characteristics of the virus, including how well it spreads between people; the severity of resulting illness; and the medical or other measures available to control the impact of the virus (for example, vaccines or medications that can treat the illness) and the relative success of these. In the absence of vaccine or treatment medications, nonpharmaceutical interventions become the most important response strategy. These are community interventions that can reduce the impact of disease.

The risk from COVID-19 to Americans can be broken down into risk of exposure versus risk of serious illness and death.

## Silerton

Mary Lynn Lambert  
609-6455

Silerton Baptist Church will return to regular services on Sunday, July 5. Breakfast will again be served at 9:00 before Sunday School at 10:00.

Piney Grove Baptist Church will start back having Sunday night services on July 5, at 6:00 p.m.

Just a note to let you know, I will no longer be writing the Silerton news. Melea Beshires will be taking over the news. A big shout out to all residents, family and friends who assisted me by sharing memories. I could never name all the people who called with encouragement and compliments on the Silerton news. Your calls were very much appreciated. One for instance, Jimmy Ruth, who is in his 8<sup>th</sup> decade called from the Covington Nursing Home where he currently resides to ask for a friend's telephone number. I was able to share with his friends here in Silerton about his call. Calls like that is what keeps us connected.

The Silerton community made the decision not to have the July 4<sup>th</sup> firework show. This tradition has been a part of Silerton for years. Gwen (Butler) Lindley shared her memories of the BBQ's that was enjoyed before the big baseball game that occurred in the afternoon. Her writing will refresh many memories I am sure. Gwen entitles her memories, July 4<sup>th</sup> during the 1960's and 1970's. She writes, "The community BBQ was an example of community support and attendance for the Silerton baseball team. Sherman Wilson and I would buy and bring out from Memphis 15 pork shoulders, canned drinks, and fireworks. Men from the community would have hickory logs to burn to cook the pork. Ossie B Wilson would move the ashes underneath the rack on which the shoulders rested, cooking slowly from dark to morning. Ossie B made his own sauce that he called Dope to "mop" all the shoulders throughout the night. Fireworks were fired off on July 3<sup>rd</sup> and July 4<sup>th</sup>. Different people from the community made slaw from the cabbages grown in their gardens. BBQ sandwiches and BBQ by the pound were sold. After lunch, the ballgame started. Sometimes there were two games. After a long, hot exciting and exhausting day came the cleanup process especially clearing up the pit in preparation for the next year." Wishing everyone a happy holiday as you celebrate our nation's freedom.

Larry, Anita, and traveled to Murfreesboro to attend their grandson's graduation party on Saturday, June 20. Their son, Joey, also traveled with them Anita writes, "Because of the Covid, only four tickets were issued per family, so we attended a celebration of Harrison's graduation with other family members and friends at his home. Decorations focused on Blackman High's colors, navy and orange. I did candy bowls and burrito bowls for each guest. There was a congratulations cake served with tea and lemonade. Harrison played saxophone four years. Also, he played ultimate frisbee for four years. He graduated Cum Laude with honors and with the work ethic distinction. He will attend Tennessee Tech and major in mechanical engineering with a vehicle engineering concentration. The graduation ceremony was streamed on YouTube so Nana, Boomba and Uncle Joe watched from our recliners".

Asking you to call Melea and share your news and memories so we all can stay connected.

Hello from Toone, where the hot, humid "dog days" of summer are upon us. We are having the normal muggy days with pop-up thunderstorms and warm nights. I can remember when the farmers strived to have blooms on their cotton plants by the Fourth of July, but this year the planting was late due to the rainy weather we had this spring. But from what I have seen, most of the fields have been planted and the crops are out of the ground and growing well.

Southwest HRA is now the provider for the student meal program in

Hardeman County, as of 5/26/2020.

The agency will be distributing a lunch and a breakfast that will be for the following day. They will be at the following location and time each day, Monday - Friday: BOLIVAR ELEMENTARY 9:30 - 11:00, BOLIVAR MIDDLE SCHOOL 11:15 - 12:15, MIDDLETON ELEMENTARY 12:45 - 2:15, TOONE ELEMENTARY 10:00 - 10:45, WHITEVILLE ELEMENTARY 11:00 - 12:30, GRAND JUNCTION ELEMENTARY 1:00 - 2:00. Only Children 18 and under are eligible to receive meals.

Parents are asked to remain in their cars, and the meal packets will be brought to your car.

Southwest HRA is also asking for assistance from volunteers who may want to provide their time to hand out these meals or direct traffic. Please contact Patti or Macy at 1-800-497-1286 for more information.

Every year since 1939, the Yarbrough Family has held some sort of a Fourth of July family reunion celebration. In the early years, family members all gathered together and pitched tents on the banks of the Hatchie River and stayed all weekend. While the whole-hog was cooking overnight, everyone enjoyed a fish fry with catfish straight from the river. As the years went by, the holiday cookout was moved to a permanent location at the old clubhouse here at the Yarbrough farm. The men dug a cooking pit into the side of a hill and cooked a whole-hog overnight. A few years later, a brick pit was built down by the lake. This new pit would hold a whole hog plus several chickens and other meats. We cooked on this pit up until about 10 years ago. We now have the family reunion each year here at my house at the farm. We no longer BBQ a hog, but still enjoy some good BBQ and potluck food. Sadly, because everyone's families are growing and spreading-out around the country, it's becoming more difficult to get the family members together each year. This year we made the decision to postpone the reunion for a few weeks due to the Covid virus. I know there will be many that won't come because of that, but the few of us around here will still try to get together in some way to keep the tradition going. Hopefully next year things will be back to a more normal state. This holiday season will be different from most of us, but I hope that in some way you can still get together with your family and friends and celebrate our country's birthday. Be sure to contact me and let me know how your holiday went so I can share it with our readers. Until next time... talk to your neighbors!

There will not be wrestling at 108 Henderson St., Friday night due to the July 4th holiday.

Everyone have a safe and happy fourth. Remember to wear face masks and distance.

Joan Henderson submitted funny for the week: Late one night a burglar broke into a house and while he was sneaking around he heard a voice say, "Jesus is watching you." He looked around and saw nothing. He kept on creeping and again heard, "Jesus is watching you." In a dark corner, he saw a cage with a parrot inside. The burglar asked the parrot, "Was it you who said Jesus is watching me?" The parrot replied, "Yes." Relieved, the burglar asked, "What is your name?" The parrot said, "Clarence." The burglar said, "That's a stupid name for a parrot. Who named you Clarence?" The parrot answered, "The same person that named the rottweiler Jesus."

Thanks to those calling and giving me people that are sick and/or news. Call 731-376-8202 or email at bonnieshealthyliving@comcast.net with any news.

Hello to all! I pray everyone is doing well. YEP was great again this year I have seen church buses of children out praying, handing out water, working on homes, churches, city parks, etc. Very thankful for the group that came to my office with Amy Morris and Stephanie Richardson and prayed for our office, staff, and the upcoming elections this year. It always blesses your heart when you know someone is lifting you up in prayer. If you know any of the children who were out this week doing the Lord's work tell

them how proud and thankful you are for them, they are our future. Hornsby Baptist is back to having Sunday school we are still being cautious, we want you to feel comfortable when you come to worship. The new app for the church is really a great tool for anyone I hope you have downloaded it. VBS is scheduled for July 31st through August 1st. If you would like to help in any way reach out to Jennifer Aylor, I know she will appreciate it. I have always loved bible school, I still have very fond memories when I was a child and for the adults who taught us many years ago. This year's theme is "Jesus: Our Strong Foundation", I don't know of any words that are truer than this, so I am looking forward to the study. The annual 4th of July celebration will take place with great food, games and fireworks on July 3rd starting at 6:30 at the ballpark in Hornsby and on July 4th the best barbecue, and the slip and slide for the children at the church at 11:30, we hope to see you there!

The committee that is working on the 100 year celebration is working hard to make this a great celebration. Please mark your calendar to make plans to attend, a lot of great things are going to be happening on October 17th in our little town. Just to name a few there will be a commemorative t-shirt that will be sold, lots of great food, and entertainment. Tell the folks who once lived in Hornsby we want this to be a great celebration for our little town. We will have more information in the next few weeks for everyone.

Prayer is a powerful thing and I know there are a lot of wonderful folks who are happy to pray for you or someone you know. If you have prayer request please let us know. Please continue to lift the following people up in your prayers: Lynn Allen, Joe Anderson, Mimi Anderson, Hugholene Barnes, Ricky Bass, Diane Cross, Sue Day, Norma Emerson, Rich Emerson, Robert Gibson, Crystal Grantham, Thomas Green, Sue Hall, James Hanna, Marilyn Hanna, Willie Lou Hannis, Richard Hazelwood, Justin Hodge, Sue Hodge, Willis Hornsby, Jo Edna Howell, Charley Johnson, Ann Kelly, Aubrey King, Lucy King, Debbie Laster, Bobbie McBride, Betty McMahan, Orville McMahan, Margie Moore, Carolyn Morgan, Evan Nield, Locke Newman, Joyce Overton, Gay Pierce, Gail Pope, Scarlett Sipes, Stacy Spence, Ronna Spoon, Susan Thompson, Martyn Venuti, Tommy Warner, Chasity Watkins, Eddie Webb, Joe West, Jennifer Wheeler, Piper Williams, the men and women who serve our country, the families of the ones who are fighting cancer, all the health care workers, the leaders of our country and especially the ones who are lost. His Word for the week: Zephaniah 3:17 "The Lord your God is in your midst, a mighty One who will save; He will rejoice over you with gladness; He will quiet you by His love; He will exult over you with loud singing." Praise God!!!

## Go Big:::

Not the size bait we prefer for the pursuit of "Slick", but "it" did get my mind wondering. Emma, Larry Joe, and I have made several attempts for Slick with only siblings falling for our tricks. I will say we had one of his younger nephews or nieces Saturday morning in the 40 to 50 lb range. As it sometimes happens he/she "called our bluff" and was the winner that day. I must say, Emma has a whole new insight to how easily that can happen. What "Slick" and all his brothers/sisters don't know is now there's two in the "Hunt" determined to keep trying you (Slick) are now deep in the brain housing group of Emma. Her determination is as strong if not equal to mine in the pursuit!

Special thanks to Terry and Mary for letting us get bait for this journey full of memories!! As Always SAFETY FIRST::: HOOT

## Work to Achieve Your Financial Independence

Over the past few months, just about everyone has felt the loss of some type of freedom, whether it's being able to travel, engage in social gatherings or participate in other activities we previously took for granted. Still, as we prepare to observe Independence Day, it's comforting to realize all the freedoms we still have in this country. And taking the right steps can also help you achieve your financial independence.

Here are some moves to consider:  
Build an emergency fund. It's a good idea to create an emergency fund consisting of three to six months' worth of living expenses, with the money held in a liquid, low-risk account. With this fund in place, you can avoid dipping into your long-term investments to pay for short-term, unexpected costs.

Keep your debts under control. It's not easy to do, but if you can consistently minimize your debt load, you can have more money to invest for the future and move closer toward achieving your financial liberty. One way to keep your debts down is to establish a budget and stick to it, so you can avoid unnecessary spending.

Contribute as much as possible to your retirement plans. The more money you can save for retirement, the greater your feelings of financial independence. So it's essential that you contribute as much as you can to your 401(k) or similar employer-sponsored retirement plan. At a minimum, put in enough to earn your employer's match, if one is offered, and every time your salary goes up, boost your annual contributions. Even if you participate in a 401(k), you're probably also still eligible to contribute to an IRA, which can help you build even more funds for retirement. And because you can fund an IRA with virtually any type of investment, you can broaden your portfolio mix.

Explore long-term care coverage. One day, your financial independence could be threatened by your need for some type of long-term care. It now costs, on average, over \$100,000 for a private room in a nursing home and more than \$50,000 for the services of a home health aide, according to Genworth, an insurance company. Most of these costs won't be covered by Medicare, either, so, if you want to reduce the risk of seriously depleting all your financial resources – or burdening your adult children with these heavy expenses – you may want to consider some type of long-term care insurance. You could choose a traditional long-term care policy – which can cover a nursing home stay, home health care, or other services – or a hybrid policy, which provides long-term care coverage plus a death benefit.

Manage withdrawals carefully. Once you retire, your financial freedom will depend a great deal on how skillful you are in managing the money in your retirement accounts. Specifically, you need to be careful about how much you withdraw from these accounts each year. If you set a withdrawal rate that's too high in your early years of retirement, you might eventually risk outliving your resources. So, set a withdrawal rate that reflects your age, assets, retirement lifestyle and other factors. You may want to consult with a financial professional to establish an appropriate rate.

As you can see, working toward your financial independence is a lifelong activity – but it's worth the effort.

# OUR COUNTY

## Back to Square One *continued from A1*

Fulghum filed a similar suit on July 1, seeking more money for one of her employees, naming then-County Mayor Willie Spencer as the defendant. The pair appeared before Judge McCraw within days of the filing, at which time a decision was rendered.

The hearing on the original lawsuit is set to begin August 31. A hearing on the legitimacy of the Motion for Sanctions filed April 21 by Herron will be heard between now and then, via phone.

When asked for comment, Herron said he was pleased with the day's events.

"The sheriff and the deputies and jailers who protect the citizens of Hardeman County are grateful and pleased that the court has set the trial date. We all look forward to August 31st and September 1st."

Shaw agreed that it was a good day in court as well.

"Thank you for requesting a comment. We are glad to make progress after such a long delay. The Court signed the order setting aside the \$175,000 fee Mr. Herron charged, and we are glad to move forward to the trial date of August 31 and September 1, so that this case can be concluded," she said.

Another part of the February 10 order filed by Shaw was in reference to attorney's fees filed by Herron. Shaw asked the fees be set aside as well, which were part of the October agreement. In February, Judge J. Weber McCraw agreed they were to be set aside, but before he could sign the order, he was asked and agreed to step away from the case by Herron.

Childress agreed with McCraw and set the attorney fees aside until a hearing could be held on

### What Happened in October and February?

Attorney Roy Herron's attempt to keep the signed settlement from October between the Hardeman County Commission and Hardeman County Sheriff John Doolen seems to rest on the conflict in testimony between Hardeman County Mayor Jimmy Sain and former Hardeman County Attorney Chip Cary during the February 27 hearing.

With Judge Todd Childress ruling the settlement would be set aside on legal grounds, he is allowing discovery on the facts of the case, for example, when Cary got back involved in the case and who asked him to do so.

According to county commissioner Justin Howell back in March, his records indicated he likely spoke to Cary on October 2, but no later than October 3, about ideas of how to settle the lawsuit and the procedure on how to get a special called meeting set to discuss the matter.

An affidavit from Commissioner John Vickers stating Howell told him he asked Cary to get back involved in the suit and another affidavit from a mayor's office employee states Cary declined to show Sain a copy the final settlement proposal prior to the meeting on October 8.

"I was contacted by Commissioner Justin Howell, that informed me that he had asked Attorney Cary to attempt a settlement on the Sheriff vs County lawsuit, and Attorney Cary stated that he needed to get a petition with nine commissioners to sign it causing the County Mayor to call a special called Commission meeting to approve a settlement. Commissioner Howell brought me the petition to sign. I signed the petition because I thought it was in the best interest of the County to settle the lawsuit," said Vickers.

The information came forth after Sain's and Cary's sworn testimony appeared to be in conflict during the February 27 hearing on the consent order signed during the eventually held meeting on October 8 that, for the time being, settled the lawsuit.

the matter. Herron declined to address the issue during the hearing, stating it was not why they were there.

"We don't think it is appropriate to advocate for ourselves, when these men and women need money," said Herron.

Herron's fees were estimated at \$175,000 at the time of the October settlement.

The day began with a ruling on a protective order filed by Shaw to prevent a round of discovery questions from being asked of Sain in response to the motion.

Although protested by Herron, the order was upheld by Childress, stating no discovery was needed with respect to the legal aspect of the Motion to Set Aside the Consent Order. Discovery on the factual side is expected to take place.

The hearing was held in the Hardeman County Courthouse Courtroom, which lacks air conditioning due to an outage. The temperatures begging the opening of the courtroom doors for a bit of relief, but noise from the street necessitated keeping them closed.

# Football Done Until September

The Tennessee Secondary School Athletic Association (TSSAA) weighed in on Governor Bill Lee's June 29 prohibition against large gatherings and contact sports until August 29.

"We are working with the governor's office to ensure that our member schools are in compliance with the executive order in regards to athletic participation and contact sports," began TSSAA Executive Director Bernard Childress.

"While the governor's order is in place, member schools cannot have any competition or scrimmage with other schools and cannot have close contact activities during their fundamental practice in the sports of football, 7-on-7 football, girls soccer, wrestling and basketball.

"Based on the extension of the governor's order, football and girls' soccer cannot begin their seasons as originally scheduled. We are in the process of developing regular season and postseason options to present to the TSSAA Board of Control for their consideration. The board will ultimately make the decision as to how this will impact the postseason and if any adjustments can be made to regular season competition."

If football can begin in September, Bolivar Central will miss out-of-region games against Freedom Prep and Memphis Kirby, while Middleton will have to do some shuffling to keep their region scheduled intact as they are scheduled to face Collinwood, a region opponent, on August 21.
